## EXECUTIVE SUMMARY

---

### Summary of Report on Financial Statements

Our audit disclosed that the District's basic financial statements were presented fairly, in all material respects, in accordance with prescribed financial reporting standards.

### Summary of Report on Internal Control and Compliance

Our audit did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* issued by the Comptroller General of the United States; however, we noted certain additional matters as summarized below.

#### ADDITIONAL MATTERS

Finding No. 1: Improvements were needed in controls over the reporting of instructional contact hours for adult general education to the Florida Department of Education.

Finding No. 2: The District did not require all employees to acknowledge in writing their understanding and acceptance of security-related responsibilities on an annual basis.

Finding No. 3: The District lacked written policies and procedures for certain information technology (IT) functions.

Finding No. 4: The District's Disaster Recovery Plan lacked several key disaster recovery control elements and had not been tested.

Finding No. 5: District staff did not remove system access privileges of certain former employees in a timely manner.

Finding No. 6: Certain security controls in the area of management of access privileges and user authentication needed improvement.

### Summary of Report on Federal Awards

We audited the District's Federal awards for compliance with applicable Federal requirements. The Special Education Cluster and Title I programs were audited as major Federal programs. The results of our audit indicated that the District materially complied with the requirements that were applicable to the major Federal programs tested. However, we did note internal control and compliance findings as summarized below.

Federal Awards Finding No. 1: Controls could be enhanced to ensure services are received before payment for such services is made, and documentation of this process is maintained.

### Audit Objectives and Scope

Our audit objectives were to determine whether the Wakulla County District School Board and its officers with administrative and stewardship responsibilities for District operations had:

- Presented the District's basic financial statements in accordance with generally accepted accounting principles;
- Established and implemented internal control over financial reporting and compliance with requirements that could have a direct and material effect on the financial statements or on a major Federal program;
- Established internal controls that promote and encourage: 1) compliance with applicable laws, rules, regulations, contracts, and grant agreements; 2) the economic and efficient operation of the District; 3) the reliability of records and reports; and 4) the safeguarding of District assets;

- Complied with the various provisions of laws, rules, regulations, contracts, and grant agreements that are material to the financial statements, and those applicable to the District's major Federal programs; and
- Taken corrective actions for findings included in our report No. 2009-164.

The scope of this audit included an examination of the District's basic financial statements and the Schedule of Expenditures of Federal Awards as of and for the fiscal year ended June 30, 2009. We obtained an understanding of the District's environment, including its internal control and assessed the risk of material misstatement necessary to plan the audit of the basic financial statements and Federal awards. We also examined various transactions to determine whether they were executed, both in manner and substance, in accordance with governing provisions of laws, rules, regulations, contracts, and grant agreements.

#### Audit Methodology

The methodology used to develop the findings in this report included the examination of pertinent District records in connection with the application of procedures required by auditing standards generally accepted in the United States of America, applicable standards contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and Office of Management and Budget *Circular A-133*.

## INDEPENDENT AUDITOR'S REPORT ON FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Wakulla County District School Board, as of and for the fiscal year ended June 30, 2009, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the school internal funds, which represent 41 percent of the assets and 68 percent of the liabilities of the aggregate remaining fund information. Additionally, we did not audit the financial statements of Wakulla's Charter School of Arts, Science and Technology, Inc., the discretely presented component unit. Those financial statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for the school internal funds and the discretely presented component unit, are based on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the school internal funds were not audited in accordance with *Government Auditing Standards*. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of the other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information for the Wakulla County District School Board as of June 30, 2009, and the respective changes in financial position and

cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report on our consideration of the Wakulla County District School Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, rules, regulations, contracts, and grant agreements and other matters included under the heading **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The **MANAGEMENT'S DISCUSSION AND ANALYSIS** (pages 3 through 8) and the **OTHER REQUIRED SUPPLEMENTARY INFORMATION** (pages 40 through 42) are not required parts of the basic financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying **SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS** is presented for purposes of additional analysis as required by the United States Office of Management and Budget *Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Respectfully submitted,

David W. Martin, CPA

## MANAGEMENT'S DISCUSSION AND ANALYSIS

The management of the Wakulla County District School Board has prepared the following discussion and analysis to provide an overview of the District's financial activities for the fiscal year ended June 30, 2009. The information contained in the Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events, and conditions and should be considered in conjunction with the District's financial statements and notes to financial statements found on pages 9 through 39.

### FINANCIAL HIGHLIGHTS

Key financial highlights for the 2008-09 fiscal year are as follows:

- In total, net assets increased \$1,715,301.95, which represents a 2.3 percent increase from the 2007-08 fiscal year.
- During the current year, General Fund expenditures exceeded revenues by \$610,918.50. This may be compared to last year's results in which General Fund revenues exceeded expenditures by \$934,603.48.
- The unreserved fund balance of the General Fund, representing the net current financial resources available for general appropriation by the Board, totals \$3,170,900.60 at June 30, 2009, or 8.6 percent of total General Fund expenditures. This represents an 11.6 percent decrease from the previous year's unreserved fund balance of \$3,585,590.70.

### OVERVIEW OF FINANCIAL STATEMENTS

The basic financial statements consist of three components:

- Government-wide financial statements.
- Fund financial statements.
- Notes to financial statements.

#### Government-wide Financial Statements

The government-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net assets and a statement of activities that are designed to provide consolidated financial information about the governmental and business-type activities of the primary government presented on the accrual basis of accounting. The statement of net assets provides information about the government's financial position, its assets and liabilities, using an economic resources measurement focus. The difference between the assets and liabilities, the net assets, is a measure of the financial health of the District. The statement of activities presents information about the change in the District's net assets, the results of operations, during the fiscal year. An increase or decrease in net assets is an indication of whether the District's financial health is improving or deteriorating.

The government-wide statements present the District's activities in three categories:

- Governmental activities – This represents most of the District's services, including its educational programs: basic, vocational, adult, and exceptional education. Support functions such as transportation and administration are also included. Local property taxes and the State's education finance program provide most of the resources that support these activities.
- Business-type activities – As fiscal agent of the Small School District Council Consortium, the District charges fees to cover the costs of certain services it provides.
- Component unit – The District presents Wakulla's Charter School of Arts, Science and Technology, Inc., as a separate legal entity in this report. Although a legally separate organization, the component unit is included in

this report because it meets the criteria for inclusion provided by generally accepted accounting principles. Financial information for this component unit is reported separately from the financial information presented for the primary government.

### **Fund Financial Statements**

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Certain funds are established by law while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types. This is in contrast to the entitywide perspective contained in the government-wide statements. All of the District's funds may be classified within one of three broad categories as discussed below.

**Governmental Funds:** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, the governmental funds utilize a spendable financial resources measurement focus rather than the economic resources measurement focus found in the government-wide financial statements. The financial resources measurement focus allows the governmental fund statements to provide information on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year.

The governmental fund statements provide a detailed short-term view that may be used to evaluate the District's near-term financing requirements. This short-term view is useful when compared to the long-term view presented as governmental activities in the government-wide financial statements. To facilitate this comparison, both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation of governmental funds to governmental activities.

The governmental funds balance sheet and statement of revenues, expenditures, and changes in fund balances provide detailed information about the District's most significant funds. The District's major funds are the General Fund, Special Revenue – ARRA Economic Stimulus Fund, Debt Service – Other Fund, Capital Projects – Local Capital Improvement Fund, and Capital Projects – Other Fund. Data from the other governmental funds are combined into a single, aggregated presentation.

The District adopts an annual appropriated budget for its governmental funds. A budgetary comparison schedule has been provided for the General and major Special Revenue Funds to demonstrate compliance with the budget.

**Proprietary Funds:** Proprietary funds may be established to account for activities in which a fee is charged for services. Enterprise funds are used to report the same functions as business-type activities in the government-wide financial statements. The District uses an enterprise fund to account for the activities of the Small School District Council Consortium, for which the District is fiscal agent.

**Fiduciary Funds:** Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the government-wide statements because the resources are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes. The District uses agency funds to account for resources held for student activities and groups.

**Notes to Financial Statements**

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements.

**GOVERNMENT-WIDE FINANCIAL ANALYSIS**

Net assets may serve over time as a useful indicator of a government’s financial position. The following is a summary of the District’s net assets as of June 30, 2009, compared to net assets as of June 30, 2008:

**Net Assets, End of Year**

The largest portion of the District’s net assets (95.5 percent) reflects its investment in capital assets (e.g., land, buildings, furniture and equipment), less any related debt still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending.

The restricted portion of the District’s net assets (4 percent) represents resources that are subject to external restrictions on how they may be used. The unrestricted net assets (0.5 percent) may be used to meet the government’s ongoing obligations to students, employees, and creditors.

The key elements of the changes in the District’s net assets for the fiscal years ended June 30, 2009, and June 30, 2008, are as follows:

	Operating Results for the Year

The largest revenue source is the State of Florida. Revenues from State sources for current operations are primarily received through the Florida Education Finance Program (FEFP) funding formula. The FEFP formula utilizes student enrollment data, and is designed to maintain equity in funding across all Florida school districts, taking into consideration the District’s funding ability based on the local property tax base. There was a decrease in the base student allocation (BSA) and district cost differential (DCD). Compared to the previous year, the BSA multiplied by the DCD decreased by 6.1 percent per FTE, from \$3,905.13 to \$3,667.74.

Capital grants and contributions decreased by \$7,773,990.27, or 81.7 percent, primarily due to the Public Education Special Facilities Fund and Classrooms for Kids appropriations received in the 2007-08 fiscal year (totaling \$3,905,544.10 and \$3,583,126, respectively) for the construction of the new Riversink Elementary School that were not received in the current year.

Net assets of the business-type activities are for the Small School District Council Consortium and total \$23,761.80 at June 30, 2009, representing a decrease of \$4,188.05 from the previous year. The decrease in net assets for the business-type activities resulted primarily from a decrease in participating school districts and a decrease in the annual amount charged for services.

## **FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS**

### **Major Governmental Funds**

The General Fund is the chief operating fund of the District. For the current fiscal year, approximately 79 percent of the revenues and 77 percent of the expenditures of the governmental funds were accounted for in the General Fund. The unreserved fund balance of the General Fund is an important indicator of the District's financial condition. The District attempts to maintain an unreserved fund balance of at least 5 percent of General Fund revenues. At the end of the current fiscal year, unreserved fund balance is \$3,170,900.60, or 8.8 percent of General Fund revenues totaling \$36,172,686.31. The unreserved fund balance decreased by \$414,690.10, while the total fund balance decreased by \$366,901.58 during the fiscal year. While expenditures were consistent with last year, State revenues declined \$2,078,577.77 largely related to FEFP. This decline in State revenues was only partially offset by modest increases in Federal and local funding.

The Special Revenue – ARRA Economic Stimulus Fund is used to account for certain Federal grant program resources related to the American Recovery and Reinvestment Act (ARRA). Because revenue is recognized to the extent that eligible expenditures have been incurred for these Federal grant program resources, the fund does not maintain a fund balance.

The Debt Service – Other Fund, established to account for repayments to the Florida Special Facilities Trust Fund, does not have a fund balance because transfers from capital outlay funds accounted for in this fund are due to the Florida Department of Education, as of June 30, 2009.

The Capital Projects – Local Capital Improvement Fund and the Capital Projects – Other Fund have total fund balances of \$990,957.93 and \$1,278,954.22, respectively. Fund balances for these funds are restricted for the acquisition, construction, and maintenance of capital assets. The fund balance in the Capital Projects – Local Capital Improvement Fund increased primarily because the District had only operating transfers out to the Debt Service – Other Fund for repayments to the Florida Special Facilities Trust Fund. The rate of fund balance increase slowed from \$763,341.90 in the prior year to \$227,616.03 in the current year, primarily because of a decrease in property tax revenues caused by a decline in the millage rate of 0.25 mills. In addition, the fund balance of the Capital Projects – Other Fund decreased due to higher expenditures for the new Riversink Elementary School.

### **Proprietary Funds**

The Small School District Council Consortium Enterprise Fund reported unrestricted net assets totaling \$23,761.80, at June 30, 2009, representing a 15 percent decrease from the previous year. This decrease occurred primarily because of decreased receipts from participating school districts.

## **GENERAL FUND BUDGETARY HIGHLIGHTS**

During the course of the 2008-09 fiscal year, the District amended its General Fund budget several times, which resulted in a decrease in total budgeted revenues of \$180,674.34, and an increase in final appropriations of \$367,810.72 from the original budgeted amounts. Budget revisions were due primarily to changes in estimated State funding levels and corresponding adjustments to planned expenditures to ensure maintenance of an adequate fund balance.

Actual revenues were in line with the final budgeted amounts, while actual expenditures were \$2,579,589.23, or 6.6 percent, less than final budget amounts mainly because instructional and pupil transportation services were less than planned. The actual ending fund balance exceeded the estimated fund balance contained in the final amended budget by \$2,591,872.80.

## **CAPITAL ASSETS AND LONG-TERM DEBT**

### **Capital Assets**

The District's investment in capital assets for its governmental activities as of June 30, 2009, amounts to \$78,972,736.80 (net of accumulated depreciation). This investment in capital assets includes land; land improvements; improvements other than buildings; buildings and fixed equipment; furniture, fixtures, and equipment; motor vehicles; audio visual materials; and computer software.

In May 2007, the District began construction on a new 655-student station elementary school. The school, named Riversink Elementary, was completed and opened to students in August 2008.

Additional information on the District's capital assets can be found in Note 4 to the financial statements.

### **Long-Term Debt**

At June 30, 2009, the District has total long-term debt outstanding of \$4,365,000, which is comprised of bonds payable. During the year, the retirement of debt amounted to \$570,000.

Additional information on the District's long-term debt can be found in Notes 5 through 7 to the financial statements.

## **OTHER MATTERS OF SIGNIFICANCE**

During the 2008-09 fiscal year, in reaction to declining economic conditions in Florida, the State Legislature convened to reduce the overall funding of the FEFP and related State programs. Overall, the District's funding per student decreased by \$135.64, or 2 percent, to \$6,642.91.

TO THE STATEMENT OF ACTIVITIES  
For the Fiscal Year Ended June 30, 2009**

**Net Change in Fund Balances - Governmental Funds** \$ (2,114,788.66)

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in the governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of capital outlays in excess of depreciation expense in the current period.	189,040.55
Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which the repayment of bonds payable exceeded proceeds in the current period.	570,000.00
Repayment of long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which the estimated Special Public Education Capital Outlay Advance Payable reported in the prior year exceeded the required repayment.	3,790,823.00
Other postemployment benefits costs are recorded in the statement of activities under the full accrual method, but in the governmental funds when due. This is the net increase in other postemployment benefits liability for the current period.	(809,680.00)
The purchases method of inventory accounting is used in the governmental funds for the transportation inventories, while in the government-wide statements inventories are accounted for on the consumption method.	10,146.52
Accrued interest expense reported in the statement of activities does not require the use of current financial resources and, therefore, is not reported as an expenditure in the governmental funds. This is the reduction in accrued interest during the current period.	3,739.95
In the statement of activities, the cost of compensated absences is measured by the amounts earned during the year, while in the governmental funds expenditures are recognized based on the amounts actually paid for compensated absences. This is the net amount of compensated absences paid in excess of the amount earned in the current period.	80,208.64

DISTRICT SCHOOL BOARD  
NOTES TO FINANCIAL STATEMENTS  
JUNE 30, 2009**

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

➤ **Reporting Entity**

The District School Board has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The Wakulla County School District is considered part of the Florida system of public education. The governing body of the school district is the Wakulla County District School Board, which is composed of five elected members. The elected Superintendent of Schools is the executive officer of the School Board. Geographic boundaries of the District correspond with those of Wakulla County.

Criteria for determining if other entities are potential component units that should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. The application of these criteria provides for identification of any entities for which the District School Board is financially accountable and other organizations for which the nature and significance of their relationship with the School Board are such that exclusion would cause the District's basic financial statements to be misleading or incomplete.

Based on the application of these criteria, the following component unit is included within the District School Board's reporting entity:

Discretely Presented Component Unit. The component unit columns in the government-wide financial statements include the financial data of Wakulla's Charter School of Arts, Science and Technology, Inc. (Charter School). The Charter School is a separate, not-for-profit corporation organized pursuant to Chapter 617, Florida Statutes. The Charter School operates under a charter approved by its sponsor, the Wakulla County District School Board, and is a component unit since it cannot levy taxes and is fiscally dependent on the District for its support. An audit of the Charter School for the fiscal year ended June 30, 2009, was conducted by an independent accounting firm and is on file at the District Office.

➤ **Basis of Presentation**

Government-wide Financial Statements - Government-wide financial statements, including the statement of net assets and the statement of activities, present information about the School District as a whole. These statements include the nonfiduciary financial activity of the primary government and its component unit. The statements distinguish between governmental activities of the District and those that are considered business-type activities.

Government-wide financial statements are prepared using the economic resources measurement focus. The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities and for each segment of the business-type activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function. Depreciation expense associated with the District's transportation department is allocated to the pupil transportation services function, while remaining depreciation expense is not readily associated with a particular function and is reported as unallocated.

Program revenues include charges paid by the recipient of the goods or services offered by the program, and grants and contributions that are restricted to meeting the operational or capital

**WAKULLA COUNTY  
DISTRICT SCHOOL BOARD  
NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2009**

requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing or draws from the general revenues of the District.

The effects of interfund activity have been eliminated from the government-wide financial statements.

Fund Financial Statements - Fund financial statements report detailed information about the District in the governmental, proprietary, and fiduciary funds. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column. Nonmajor funds are aggregated and reported in a single column. Because the focus of governmental fund financial statements differs from the focus of government-wide financial statements, a reconciliation is presented with each of the governmental fund financial statements.

The District reports the following major governmental funds:

- General Fund – to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.
- Special Revenue – ARRA Economic Stimulus Fund – to account for certain Federal grant program resources related to the American Recovery and Reinvestment Act (ARRA).
- Debt Service – Other Fund – to account for the accumulation of financial resources for the payment of debt principal, interest, and related costs for the Public Education Capital Outlay Special Facilities Advance Payable.
- Capital Projects – Local Capital Improvement Fund – to account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction and renovation and remodeling projects.
- Capital Projects – Other Fund – to account for the financial resources generated by various State and local sources, including Classrooms for Kids, and local sources such as impact fees to be used for educational capital outlay needs, including new construction and renovation and remodeling projects.

Additionally, the District reports the following proprietary and fiduciary fund types:

- Enterprise Fund – to account for the financing of the Small School District Council Consortium, for which the District is fiscal agent.
- Agency Funds – to account for resources of the school internal funds, which are used to administer moneys collected at several schools in connection with school, student athletic, class, and club activities.
- **Basis of Accounting**

Basis of accounting refers to when revenues and expenditures, or expenses, are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements are prepared using the accrual basis of accounting, as are the proprietary fund and fiduciary funds financial statements. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants,

**WAKULLA COUNTY  
DISTRICT SCHOOL BOARD  
NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2009**

entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are prepared using the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized when they become measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made. Under the modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred, except for principal and interest on long-term debt, claims and judgments, other postemployment benefits, and compensated absences, which are recognized when due. Allocations of cost, such as depreciation, are not recognized in governmental funds.

The proprietary fund is accounted for as a proprietary activity under standards issued by the Financial Accounting Standards Board through November 1989 and applicable standards issued by the Governmental Accounting Standards Board. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's principal ongoing operations. The principal operating revenues of the District's enterprise fund are charges for services relating to the Small School District Council Consortium. Operating expenses of the Consortium consist of purchased services.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Wakulla's Charter School of Arts, Science and Technology, Inc., shown as a discretely presented component unit, is accounted for as a governmental organization and follows the same accounting model as the District's governmental activities.

➤ **Deposits and Investments**

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term, highly liquid investments with original maturities of three months or less. Investments classified as cash equivalents include amounts placed with the State Board of Administration (SBA) Local Government Surplus Funds Trust Fund Investment Pool (LGIP), which, effective July 1, 2009, is known as Florida PRIME.

Cash deposits are held by banks qualified as public depositories under Florida law. All deposits are insured by Federal depository insurance, up to specified limits, or collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes.

Investments consist of amounts placed in SBA Debt Service accounts for investment of debt service moneys and amounts placed with SBA for participation in the Fund B Surplus Funds Trust Fund (Fund B) investment pool created by Section 218.417, Florida Statutes. This investment pool operates under investment guidelines established by Section 215.47, Florida Statutes.

The District's investments in LGIP, which SBA indicates is a Securities and Exchange Commission Rule 2a7-like external investment pool, as of June 30, 2009, are similar to money market funds in which shares are owned in the fund rather than the underlying investments. These investments are reported at fair value, which is amortized cost.

**WAKULLA COUNTY  
DISTRICT SCHOOL BOARD  
NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2009**

The District’s investments in Fund B are accounted for as a fluctuating net asset value pool, with a fair value factor of 0.51370946 at June 30, 2009. Fund B is not subject to participant withdrawal requests. Distributions from Fund B, as determined by SBA, are effected by transferring eligible cash or securities to LGIP, consistent with the pro rata allocation of pool shareholders of record at the creation date of Fund B. One hundred percent of such distributions from Fund B are available as liquid balance within LGIP.

The types and amounts of investments held at fiscal year-end are described in a subsequent note on investments.

➤ **Inventories**

Inventories consist of expendable supplies held for consumption in the course of District operations. Inventories are stated at cost on the first-in, first-out basis, except that United States Department of Agriculture surplus commodities are stated at their fair value as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Services, Bureau of Food Distribution. The costs of inventories are recorded as expenditures when used rather than purchased. The costs of transportation inventories are recorded as expenditures at the time the individual items are purchased and the reported transportation inventory is equally offset by a fund balance reserve, which indicates that it does not constitute “available spendable resources.”

➤ **Capital Assets**

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net assets but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$750. However, for renovations to buildings the threshold of capitalization is \$50,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at fair value at the date of donation.

Capital assets are depreciated using the weighted average composite method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Improvements Other than Buildings	8 - 35 years
Buildings and Fixed Equipment	10 - 50 years
Furniture, Fixtures, and Equipment	3 - 10 years
Motor Vehicles	5 - 10 years
Audio Visual Materials	3 years
Computer Software	5 years

**WAKULLA COUNTY  
DISTRICT SCHOOL BOARD  
NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2009**

Current year information relative to changes in capital assets is described in a subsequent note.

➤ **Long-Term Liabilities**

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net assets.

In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due.

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are accrued as liabilities to the extent that it is probable that the benefits will result in termination payments. A liability for these amounts is reported in the governmental fund financial statements only if it has matured, such as for occurrences of employee resignations and retirements.

Changes in long-term liabilities for the current year are reported in a subsequent note.

➤ **State Revenue Sources**

Revenues from State sources for current operations are primarily from the Florida Education Finance Program administered by the Florida Department of Education (Department) under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the reported number of FTE and related data, and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of nine months following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The Department may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical educational programs. The Department generally requires that categorical educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is reserved in the governmental fund financial statements for the unencumbered balance of categorical educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay money, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the Department.

Pursuant to Section 1013.64, Florida Statutes, the District received a special allocation in the 2007-08 fiscal year for specific construction needs through the Public Education Capital Outlay and Debt Service Trust Fund - Special Facility Construction Account. As a condition for receiving these funds, other construction funding must be pledged for the project, including the capital outlay millage levied pursuant to Section 1011.71(2), Florida Statutes, for the following three fiscal years. During the three-year period, reductions to the special allocations are made to the extent of collections from the required pledged sources.

A schedule of revenue from State sources for the current year is presented in a subsequent note.

**WAKULLA COUNTY  
DISTRICT SCHOOL BOARD  
NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2009**

➤ **District Property Taxes**

The School Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Wakulla County Property Appraiser, and property taxes are collected by the Wakulla County Tax Collector.

The School Board adopted the 2008 tax levy on September 8, 2008. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment.

Taxes become a lien on the property on January 1, and are delinquent on April 1, of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the Wakulla County Tax Collector at fiscal year-end but not yet remitted to the District.

Millages and taxes levied for the current year are presented in a subsequent note.

➤ **Federal Revenue Sources**

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

## 2. BUDGETARY COMPLIANCE AND ACCOUNTABILITY

The Board follows procedures established by State statutes and State Board of Education rules in establishing budget balances for governmental funds, as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and State Board of Education rules.
- Appropriations are controlled at the object level (e.g., salaries, purchased services, and capital outlay) within each activity (e.g., instruction, pupil personnel services, and school administration) and may be amended by resolution at any School Board meeting prior to the due date for the annual financial report.
- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.
- Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent year's appropriations.

**WAKULLA COUNTY  
DISTRICT SCHOOL BOARD  
NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2009**

**3. INVESTMENTS**

Section 218.415(17), Florida Statutes, authorizes the District to invest in the State Board of Administration (SBA) Local Government Surplus Funds Trust Fund (LGIP), any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in Section 163.01, Florida Statutes; Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency; interest-bearing time deposits or savings accounts in qualified public depositories, as defined in Section 280.02, Florida Statutes; and direct obligations of the United States Treasury.

Investments, reported as cash equivalents, with a fair value of \$3,738,123.36 at June 30, 2009, are in SBA LGIP with a weighted average days to maturity (WAM) of 46 days. A portfolio's WAM reflects the average maturity based on final maturity or reset date, in the case of floating rate instruments. WAM measures the sensitivity of the portfolio in interest rate changes. The District's investment in LGIP is rated AAAM by Standard & Poor's.

Investments with a fair value of \$109,611.66 at June 30, 2009, are in the SBA Fund B Surplus Funds Trust Fund (Fund B) with a weighted average life (WAL) of 6.87 years. A portfolio's WAL is the dollar weighted average length of time until securities held reach maturity. WAL, which also measures the sensitivity of the portfolio to interest rate changes, is based on legal final maturity dates for Fund B as of June 30, 2009. However, because Fund B consists of restructured or defaulted securities there is considerable uncertainty regarding the WAL. The District's investment in Fund B is unrated.

In addition, the District reports investments totaling \$26,084.07 at June 30, 2009, in the SBA Debt Service accounts to provide for debt service payments on bond debt issued by the State Board of Education for the benefit of the District. These investments consist of United States Treasury securities, with maturity dates of six months or less, and are reported at fair value. The District relies on policies developed by SBA for managing credit risk for this account.

➤ **State School Bonds**

These bonds are issued by the State Board of Education on behalf of the District. The bonds mature serially, and are secured by a pledge of the District’s portion of the State-assessed motor vehicle license tax. The State’s full faith and credit is also pledged as security for these bonds. Principal and interest payments, investment of Debt Service Fund resources, and compliance with reserve requirements are administered by the State Board of Education and the State Board of Administration.

➤ **District General Obligation Bonds**

General Obligation Bonds, Series 1999, Refunding, are authorized by resolutions adopted by the Board on April 9, 1999, and are secured by a pledge of property taxes levied, pursuant to Chapters 1010 and 1011, Florida Statutes.

**12. FLORIDA RETIREMENT SYSTEM**

All regular employees of the District are covered by the State-administered Florida Retirement System (FRS). Provisions relating to FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112 Part IV, Florida Statutes; Chapter 238, Florida Statutes; and Florida Retirement System Rules, Chapter 60S, Florida Administrative Code, wherein eligibility, contributions, and benefits are defined and described in detail. Essentially all regular employees of participating employers are eligible and must enroll as members of FRS. FRS is a single retirement system administered by the Department of Management Services, Division of Retirement, and consists of two cost-sharing, multiple-employer retirement plans and other nonintegrated programs. These include a defined benefit pension plan (Plan), a Deferred Retirement Option Program (DROP), and a defined contribution plan, referred to as the Public Employee Optional Retirement Program (PEORP).

Employees in the Plan vest at six years of service. All vested members are eligible for normal retirement benefits at age 62 or at any age after 30 years of service, which may include up to four years of credit for military service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, and death benefits and annual cost-of-living adjustments.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in PEORP in lieu of the Plan. District employees participating in DROP are not eligible to participate in PEORP. Employer contributions are defined by law; however, the ultimate benefit depends in part on the performance of investment funds. PEORP is funded by employer contributions that are based on salary and membership class (Regular, Elected County Officers, etc.). Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Employees in PEORP vest after one year of service. There were 78 District participants during the 2008-09 fiscal year. Required contributions made to PEORP totaled \$223,041.78.

**WAKULLA COUNTY  
DISTRICT SCHOOL BOARD  
NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2009**

**FRS Retirement Contribution Rates**

The Florida Legislature establishes, and may amend, contribution rates for each membership class of FRS. During the 2008-09 fiscal year, contribution rates were as follows:

Class	Percent of Gross Salary	
	Employee	Employer (A)
Florida Retirement System, Regular	0.00	9.85
Florida Retirement System, Elected County Officers	0.00	16.53
Deferred Retirement Option Program - Applicable to Members from All of the Above Classes	0.00	10.91
Florida Retirement System, Reemployed Retiree	(B)	(B)

Notes: (A) Employer rates include 1.11 percent for the postemployment health insurance subsidy. Also, employer rates, other than for DROP participants, include 0.05 percent for administrative costs of PEORP.

(B) Contribution rates are dependent upon retirement class in which reemployed.

The District’s liability for participation is limited to the payment of the required contribution at the rates and frequencies established by law on future payrolls of the District. The District’s contributions including employee contributions for the fiscal years ended June 30, 2007, June 30, 2008, and June 30, 2009, totaled \$2,137,744.49, \$2,429,561.24, and \$2,347,361.46, respectively, which were equal to the required contributions for each fiscal year.

The financial statements and other supplementary information of FRS are included in the comprehensive annual financial report of the State of Florida, which may be obtained from the Florida Department of Financial Services. Also, an annual report on FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services, Division of Retirement.

**13. OTHER POSTEMPLOYMENT BENEFITS**

Effective for the 2008-09 fiscal year, the District implemented Governmental Accounting Standards Board Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, for certain postemployment healthcare and life insurance benefits provided by the District. The requirements of this statement are being implemented prospectively, with the actuarially determined liability of \$15,477,349 at the July 1, 2008, date of transition amortized over 30 years. Accordingly, for financial reporting purposes, no liability is reported for the postemployment healthcare and life insurance benefits liability at the date of transition.

**Plan Description.** The Postemployment Health and Life Insurance Plan is a single-employer defined benefit plan administered by the District. Pursuant to the provisions of Section 112.0801, Florida Statutes, former employees who retire from the District are eligible to participate in the District’s purchased health and hospitalization plan for medical, prescription drug, and life insurance coverage. The District subsidizes

**WAKULLA COUNTY  
DISTRICT SCHOOL BOARD  
NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2009**

the premium rates paid by retirees by allowing them to participate in the plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the plan on average than those of active employees. Retirees are required to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible. The Postemployment Health and Life Insurance Plan does not issue a stand-alone report, and is not included in the report of a Public Employee Retirement System or another entity.

**Funding Policy.** Contribution requirements of the District and plan members are established and may be amended through action from the Board. The District has not advance-funded or established a funding methodology for the annual Other Postemployment Benefit (OPEB) costs or the net OPEB obligation and the plan is financed on a pay-as-you-go basis. For the 2008-09 fiscal year, 123 retirees received postemployment life and 71 retirees received postemployment healthcare benefits. The District’s contribution of \$377,943 toward the OPEB cost was comprised of insurance premiums payments made on behalf of retirees, and net of retiree contributions totaling \$366,588, which represents 2.63 percent of covered payroll.

**Annual OPEB Cost and Net OPEB Obligation.** The District’s annual OPEB cost (expense) is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with parameters of Governmental Accounting Standards Board Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. The ARC represents a level of funding that if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years. The following table shows the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District's net OPEB obligation:

<u>Description</u>	<u>Amount</u>
Normal Cost (service cost for one year)	\$ 664,306
Amortization of Unfunded Actuarial Accrued Liability	492,648
Interest on Normal Cost and Amortization	<u>30,669</u>
Annual Required Contribution	1,187,623
Interest on Net OPEB Obligation	
Adjustment to Annual Required Contribution	<u>                    </u>
Annual OPEB Cost (Expense)	1,187,623
Contribution Toward the OPEB Cost	<u>(377,943)</u>
Increase in Net OPEB Obligation	809,680
Net OPEB Obligation, Beginning of Year	<u>                    </u>
Net OPEB Obligation, End of Year	<u><u>\$ 809,680</u></u>

**WAKULLA COUNTY  
DISTRICT SCHOOL BOARD  
NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
JUNE 30, 2009**

The District’s annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation as of June 30, 2009 (first year of implementation), were as follows:

Fiscal Year	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
Beginning Balance, 7-1-08	\$ 0	0.0%	\$ 0
2008-09	1,187,623	31.8%	809,680

**Funded Status and Funding Progress.** As of October 1, 2007, the most recent valuation date, the actuarial accrued liability for benefits was \$15,477,349, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability of \$15,477,349 and a funded ratio of 0 percent. The covered payroll (annual payroll of active participating employees) was \$14,363,429 for the 2008-09 fiscal year, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 107.8 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and termination, mortality, and healthcare cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The required schedule of funding progress immediately following the notes to financial statements presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

**Actuarial Methods and Assumptions.** Projections of benefits for financial reporting purposes are based on the substantive plan provisions, as understood by the employer and participating members, and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and participating members. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The District’s initial OPEB actuarial valuation as of October 1, 2007, used the entry age normal cost actuarial method to estimate the unfunded actuarial liability as of June 30, 2009, and the District’s 2008-09 fiscal year annual required contribution. Because the OPEB liability is currently unfunded, the actuarial assumptions included a 3.55 percent rate of return on invested assets, which is the District’s long-term expectation of investment returns under its investment policy. The actuarial assumptions also included a payroll growth rate of 4 percent per year, and an annual healthcare cost trend rate of 6 percent initially beginning October 1, 2008, rising to 9 percent on October 1, 2009, then reduced by 0.5 percent per year to an ultimate rate of 5 percent after October 1, 2017. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at June 30, 2009, was 29 years.

**14. CONSORTIUM**

The District is a member of, and the fiscal agent for, the Small School District Council Consortium. The Consortium is an association of small school districts organized to hire a consultant to collect, interpret, and disseminate information regarding educational matters affecting the member districts, as well as consult and communicate as directed to change, influence, and improve the conditions in the affected districts. The District is not the predominant participant in the consortium and, therefore, has established an enterprise fund to account for the Consortium's resources and operations.

**15. RISK MANAGEMENT PROGRAMS**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Wakulla County District School Board is a member of the Panhandle Area Educational Consortium - Risk Management Consortium under which several district school boards have established a combined limited self-insurance program for property protection, general liability, automobile liability, workers' compensation, money and securities, employee fidelity and faithful performance, boiler and machinery, and other coverage deemed necessary by the members of the Consortium. Section 1001.42(12)(k), Florida Statutes, provides the authority for the District to enter into such a risk management program. The Consortium is self-sustaining through member assessments (premiums), and purchases coverage through commercial companies for claims in excess of specified amounts. The Board of Directors for the Consortium is composed of superintendents of all participating districts. The Washington County District School Board serves as fiscal agent for the Consortium.

Settled claims resulting from these risks have not exceeded commercial coverage in any of the past three fiscal years.

Employee group life and health insurance coverage are being provided through purchased commercial insurance with minimum deductibles for each line of coverage.

**16. SUBSEQUENT EVENTS**

On July 1, 2009, the Legislature appropriated an additional \$487,727, to the District under the Public Education Capital Outlay Special Facilities Construction Program for the wastewater services required for the new Riversink Elementary School. Before receiving the appropriation, the District entered into an agreement with the Wakulla County Board of County Commissioners (County) to share the construction costs of the wastewater services and share any of the construction costs. However, the agreement also contemplated the possible receipt of the legislative appropriation and, if received, the District would be fully reimbursed for all construction costs and no longer be entitled to receive any revenues generated from the sewer system from the County. As of June 30, 2009, the County had not received any fees related to the wastewater system; therefore, the District reported a deferred revenue amount totaling \$243,863.50, which represents its share of the construction costs of the wastewater system.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Wakulla County District School Board as of and for the fiscal year ended June 30, 2009, which collectively comprise the District's basic financial statements, and have issued our report thereon under the heading **INDEPENDENT AUDITOR'S REPORT ON FINANCIAL STATEMENTS**. Our report on the basic financial statements was modified to include a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Other auditors audited the financial statements of the school internal funds and the discretely presented component unit, as described in our report on the Wakulla County District School Board's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance of the discretely presented component unit and other matters that are reported on separately by those auditors. The financial statements of the school internal funds were not audited in accordance with *Government Auditing Standards*.

### Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted

accounting principles such that there is more than a remote likelihood that a misstatement of the District's financial statements that is more than inconsequential will not be prevented or detected by the District's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the District's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, rules, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain additional matters that are discussed in the **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** section of this report.

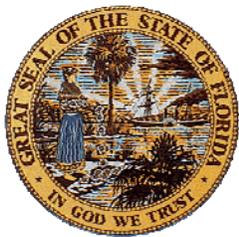

Management's response to the findings described in the **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** section of this report is included as Exhibit A. We did not audit management's response and, accordingly, we express no opinion on it.

Pursuant to Section 11.45(4), Florida Statutes, this report is a public record and its distribution is not limited. Auditing standards generally accepted in the United States of America require us to indicate that this report is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, Federal and other granting agencies, and applicable management and is not intended to be and should not be used by anyone other than these specified parties.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB *CIRCULAR A-133*

### Compliance

We have audited the Wakulla County District School Board's compliance with the types of compliance requirements described in the United States Office of Management and Budget's (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major Federal programs for the fiscal year ended June 30, 2009. The District's major Federal programs are identified in the **SUMMARY OF AUDITOR'S RESULTS** section of the **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of the District's major Federal programs is the responsibility of District management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the OMB's *Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB *Circular A-133* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to each of its major Federal programs for the year ended June 30, 2009. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is required to be reported in accordance with OMB *Circular A-133* and which is described in the **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** section of this report as Federal Awards Finding No. 1.

## Internal Control Over Compliance

District management is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to Federal programs. In planning and performing our audit, we considered the District's internal control over compliance with the requirements that could have a direct and material effect on a major Federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in the District's internal control that might be significant deficiencies or material weaknesses as defined below. However, as discussed below, we identified a certain deficiency in internal control over compliance that we considered to be a significant deficiency.

A *control deficiency* in the District's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a Federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to administer a Federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a Federal program that is more than inconsequential will not be prevented or detected by the District's internal control. We consider the deficiency in internal control over compliance described in the **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** section of this report as Federal Awards Finding No. 1 to be a significant deficiency.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a Federal program will not be prevented or detected by the District's internal control. We did not consider the Federal Awards control deficiency described in the **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** section of this report to be a material weakness.

Management's response to the findings described in the **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** section of this report is included as Exhibit A. We did not audit management's response and, accordingly, we express no opinion on it.

Pursuant to Section 11.45(4), Florida Statutes, this report is a public record and its distribution is not limited. **ADDITIONAL MATTERS**

**Finding No. 1: Adult General Education Courses**

Section 1004.02(3), Florida Statutes, defines adult general education, in part, as comprehensive instructional programs designed to improve the employability of the State's workforce. Chapter 2008-152, Laws of Florida, states that from the funds provided in Specific Appropriation 120, each school district shall report enrollment for adult general education programs identified in Section 1004.02, Florida Statutes, in accordance with the Florida Department of Education (FDOE) instructional hours reporting procedures. Procedures provided by FDOE to the school districts stated that fundable instructional contact hours are those scheduled hours that occur between the date of enrollment in a class and the withdrawal date or end-of-class date, whichever is sooner. FDOE procedures for reporting instructional hours state that institutions must develop a procedure for withdrawing students for nonattendance and that the standard for setting the withdrawal date shall be six consecutive absences from a class schedule.

The District reported 16,742 adult general education hours to FDOE for the 2008-09 fiscal year. Our review of the hours reported for 20 students enrolled in nine adult general education classes disclosed exceptions in the enrollment reporting as follows:

- The District mistakenly overreported 35 enrollment hours for 2 students that had six or more consecutive absences.
- Due to calculation and data entry errors, such as posting the incorrect class hours on the master class schedule, the District underreported 297 enrollment hours for 11 students.

Since future funding may be based, in part, on enrollment data submitted to FDOE, it is important that such data be submitted correctly. A similar finding was noted in our report No. 2009-164.

**Recommendation:** The District should enhance its controls over the accuracy of its attendance records and the reporting of instructional contact hours for adult general education courses to the Florida Department of Education.

**Finding No. 2: Information Technology – Security Awareness Training Program**

Significant nonpublic records (e.g., student record information and other records that contain sensitive information) are included in the data maintained by the District's information technology (IT) systems. During the 2008-09 fiscal year, the District implemented a comprehensive security awareness training program to apprise new employees of, or reemphasize to current employees, the importance of preserving the confidentiality, integrity, and availability of data and IT resources entrusted to them. Additionally, the District had previously developed an acceptable use policy that covered, among other things, appropriate Internet, e-mail, and network resource usage. However, as similarly noted in our report No. 2009-164, employees were not required to acknowledge in writing their awareness, understanding,

and acceptance of security-related responsibilities on an annual basis. The District's failure to require this annual acknowledgement increases the risk that the District's IT resources could be unintentionally compromised by employees while performing their assigned duties.

---

---

**Recommendation: The District should require all employees to acknowledge in writing their understanding and acceptance of security-related responsibilities on an annual basis.**

---

---

---

---

**Finding No. 3: Information Technology – Written Policies and Procedures**

---

---

Each IT function needs complete, well-documented policies and procedures to describe the scope of the function and its activities. Sound policies and procedures provide benchmarks against which compliance can be measured and contribute to an effective control environment. On April 20, 2009, the Board approved a revised District Technology Plan that incorporated certain IT policies and procedures regarding passwords and the deletion of former employee access. However, as similarly noted in our report No. 2009-164, the District still lacked written policies and procedures for the following IT functions:

- Administering user identification codes (IDs), administrator IDs, administrator passwords, guest accounts, and security devices (such as firewalls and routers).
- Changing or deleting vendor-supplied passwords upon installation.
- Prohibiting administrator rights on the workstations of end users.
- Monitoring and logging access to and modification of sensitive or critical tables, files, and transactions for the application, database, and network.
- Revoking access privileges of consultants and vendors.
- Removing confidential information from consultant and vendor equipment.
- Defining responsibilities, access privileges, and activities for network, database, and security administrators and technicians.

Without written policies and procedures, the risk is increased that IT controls may not be followed consistently and in a manner consistent with management's expectations. A similar finding was noted in our report No. 2009-164.

---

---

**Recommendation: The District should establish written policies and procedures to document management's expectations for the performance of the above-listed IT functions.**

---

---

---

---

**Finding No. 4: Information Technology – Disaster Recovery Plan**

---

---

The District could improve its IT disaster recovery plan. The Board entered into a reciprocal disaster recovery agreement with Panhandle Area Educational Consortium (PAEC) member districts whereby member districts agreed to serve as alternative processing sites for each other in the event of a disaster that interrupts critical District IT operations. Additionally, the District had established a Disaster Recovery Plan (Plan) and assigned responsibilities for carrying out disaster recovery activities to particular individuals. However, the District had not tested the Plan, and the Plan did not include the following key recovery control elements:

- Prioritization of critical operations and data; and
- Documentation of procedures to follow when the Northwest Regional Data Center is inoperable.

Disaster recovery plans are an important element of effective internal control over IT operations. When a disaster recovery plan does not include key recovery control elements and has not been tested for feasibility or weaknesses, there is an increased risk that restoration of IT operations may be delayed in the event of a disaster.

**Recommendation:** The District should enhance its Disaster Recovery Plan by prioritizing critical operations and data, providing contingencies for service interruptions with the Northwest Regional Data Center, and annually testing the Plan’s effectiveness.

**Finding No. 5: Information Technology – Removal of Access Privileges**

Effective management of system access privileges includes the timely removal of employee access privileges when employees terminate. Prompt action is necessary to ensure that a former employee’s access privileges are not misused by a former employee or others. Our review disclosed that the District did not remove access privileges of five former employees in a timely manner. The user IDs of the five former employees remained active in the security software, from 42 to 290 days after the employees’ termination dates. Without timely deletion of former employees’ access, the risk is increased that access privileges could be misused by the former employee or others.

**Recommendation:** The District should promptly remove the access privileges of former employees to minimize the risk that the access privileges could be used to compromise District data or IT resources.

**Finding No. 6: Information Technology – Security Controls**

Security controls over the District’s resources are intended to protect the confidentiality, integrity, and availability of data and IT resources from unauthorized users. Our audit disclosed certain security controls in the areas of management of access privileges and user authentication that needed improvement. We are not disclosing specific details of the issues in this report to avoid the possibility of compromising the District’s data and IT resources. However, we have notified appropriate District management of the specific issues. Without appropriate security controls, the confidentiality, integrity and availability of data and IT resources may be compromised, increasing the risk that District data and IT resources may be subject to improper disclosure, modification, or destruction. A similar finding was noted in our report No. 2009-164.

**Recommendation:** The District should implement appropriate security controls to ensure the continued confidentiality, integrity, and availability of District data and IT resources.

**FEDERAL AWARDS FINDINGS AND QUESTIONED COSTS**

**Federal Awards Finding No. 1:**  
**Federal Agency:** United States Department of Education  
**Pass-Through Entity:** Florida Department of Education  
**Program:** Title I Grants to Local Educational Entities (CFDA No. 84.010) and Special Education – Grants to States (CFDA No. 84.027)  
**Finding Type:** Noncompliance and Significant Deficiency  
**Questioned Costs:** Not Applicable

**Allowable Costs/Cost Principles.** Improvements could be made in controls over monitoring charges to the Title I and Special Education programs. The United States Office of Management Services and Budget *Circular A-87*,

Appendix A, Section C.1., provides, in part, that costs must be adequately documented to be allowable under Federal awards. For the 2008-09 fiscal year, the District reported Title I and Special Education program expenditures totaling approximately \$700,000 and \$1.2 million, respectively, for salaries and benefits, purchased services, and other costs. To determine whether the District verified and documented that services were properly received and charges for services conformed with contract terms before payments were made, we reviewed supporting documentation for these expenditures, and noted certain control deficiencies as follows:

- Our review of District records supporting payments, totaling approximately \$32,000, to six independent contractors for Title I program services, disclosed that the District paid two contractors approximately \$17,000, without initially having evidence that the services were received. The District entered into agreements with the two contractors to provide math and writing training for teachers at Title I schools, and District payments were based on invoices evidencing the contractors' time and services at the schools. However, District records included limited instances in which sign-in/sign-out sheets were maintained, and none of the records indicated verification or approval by school-level staff to evidence receipt of the services. Subsequent to our inquiry, school personnel who worked directly with the contractors, or had knowledge of the time worked by the contractors, certified that the District received the services and the amounts billed and paid were correct. District personnel further indicated that similar certifications by school personnel who worked directly with the contractors, or had knowledge of the time worked by the contractors, would be obtained prior to payment in the future to substantiate costs of such contractor services.
- We tested District records supporting payments totaling approximately \$79,000, to nine independent contractors providing Special Education program services. The Board approved an interlocal agreement with one of the contractors (Leon County District School Board) to provide exceptional education services for eligible students residing in Wakulla County based on an agreed-upon formula and student enrollment, and made payments, totaling \$14,500, for these services. While the Special Education Director approved these payments, District personnel had not reconciled the charges to the agreement terms before the payments were made. Although we were able to reconcile the amount billed and paid with the terms of the agreement, our procedures do not substitute for management's responsibility to maintain adequate controls over such payments.

When Federal charges are not properly monitored, the risk increases that payments may be made for services not performed in accordance with grant terms and District intentions.

---

**Recommendation:** The District should enhance its preaudit procedures to ensure that verifications are received to evidence that work has been performed and that payments reconcile to contract terms.

Dear Mr. Martin:

The preliminary and tentative findings and recommendations for the fiscal year ending June 30, 2009 have been reviewed with Karen Revell and Stacy Boyd. Our response to the findings and recommendations are listed below.

Finding No. 1: Adult General Education Courses

District Response:

The District has enhanced controls over the reporting of instructional contact hours to the Florida Department of Education.

Finding No. 2: Information Technology – Security Awareness Training Program

District Response: Currently all employees sign an acknowledgement of receipt and understanding of the School Board's personnel handbook. On page 17 of the Personnel Handbook, the District spells out its network access statement and policy. To clarify the employee's understanding and acknowledgement of the District's network policy and their security-related responsibilities, all employees will sign a sign a statement of acknowledgement that clearly states the security-related responsibilities of the employee.

Finding No. 3: Information Technology – Written Policies and Procedures

District Response: The District will establish written policies and procedures to document expectations for the performance of the identified IT functions. The written policies and procedures will be implemented by May 2010.

---

Finding No. 4: Information Technology – Disaster Recovery Plan

District Response: The District will expand its current Disaster Recovery Plan to include the prioritization of critical operations, data and procedures to follow when the NWRDC is inoperable.

Finding No. 5: Information Technology – Removal of Access Privileges

District Response: the District has implemented procedures to assure the timely removal of access privileges from former employees. The Finance Department and the MIS Department has implemented a process that will create a short-turnaround from the time an employee is no longer a school board employee and the time that employee will no longer have access privileges to programs, files and documents of District data and IT resources.

Finding No 6: Information Technology – Security Controls

District Response: The district is implementing administrative control software on all school board desktops, laptops and servers. In addition, user access to data will be monitored and evaluated regularly throughout the year.

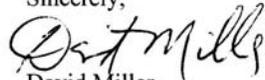

Federal Award Findings

Finding # 1: Allowable Costs/Cost Principles

District Response: The District has enhanced its controls and procedures to ensure services are received before payment for such services is made and documentation of this process is maintained.

The District accepts your comments and recommendations with regard to its FY 2008-2009 audit report in a positive and constructive manner. All recommendations will be reviewed and considered for implementation during the fiscal year 2009-2010. The District commends your staff on their courtesy and professionalism.

Sincerely,

David Miller  
Superintendent, Wakulla County Public Schools
