

EDUCATION - SCHOOLS

August 2020

Volume 1  
Newsletter

We know you want the best for your student, and so do we. While Sodexo has proudly served the Wakulla County Schools community for the past four years, like you, we understand that this year will be like no other. Whether students are eating in their classroom or in the cafeteria we're committed to serving healthy, nutritious meals while educating the students on the importance of eating a healthy and nutritious that you expect in a safe, welcoming environment.

The road ahead is sure to have twists and turns, but as we navigate it together, we'll continue to put the health and safety of your student above all else.

If can answer any questions, I hope you won't hesitate to let me know. You can reach us at: [Lisa.Mccloudy@sodexo.com](mailto:Lisa.Mccloudy@sodexo.com) or 850-926-0065 ext. 9522.

*Welcome Back*

### STUDENT EDUCATION

Sodexo takes great pride in providing quality, nutritious meals with a great deal of variety and taste, but we are so much more than a Foodservice company. With programs like Mindful, Performance Zone, My Mondays and even our Core Programs, Sodexo strives to improve the minds of our students, encourage physical activity and healthy eating, as well as increase their knowledge base about nutrition, sustainability and all things related to good health. With Classroom and Cafeteria Lessons, along with Experiential Learning experiences, we are well equipped to improve the quality of life for our students.
