The goal of Multi-Tiered System of Support (MTSS) in Wakulla is student success, which is evidenced by each student’s increasing achievement and successful movement to a full-option diploma. This goal fully aligns with our vision – a rigorous and appropriate education that results in success for all students, and our mission – committed to success for students, teachers, staff, and our school system.

INTRODUCTION:

Response to Intervention (RtI) is a general education imperative and rests upon the premise that ALL children can learn. It is one arm of the Multi-Tiered System of Supports, which seeks to provide adequate and effective support to all students. RtI encompasses the foundational principles of research-based effective instruction, ongoing progress monitoring, and modification of instruction based upon the progress monitoring data. Recognizing that the goal of all education is to move the student to successful completion of the course of study required to graduate from high school and enter into college and/or a career. The responsibility to address learning needs early and intensify instruction to close the achievement gap is a task with which schools are trusted. Therefore, RtI defines our goal and provides our marching orders to produce literate and successful students.

This handbook outlines the processes and requirements of a systemic approach to Response to Intervention. It provides the foundational principles and the logistical information to assure a comprehensive and effective approach to student learning.

Understanding Response to Intervention:

<table>
<thead>
<tr>
<th>RtI is NOT</th>
<th>RtI IS</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Just a way to identify students for ESE.</td>
<td>• Identifying student needs.</td>
</tr>
<tr>
<td>• Paperwork.</td>
<td>• Knowing when a student is not progressing.</td>
</tr>
<tr>
<td>• A checklist to complete.</td>
<td>• Teaching all students and teaching some students at a higher level of intensity.</td>
</tr>
<tr>
<td>• Seeing the student as the problem.</td>
<td>• Intervening to increase learning.</td>
</tr>
<tr>
<td></td>
<td>• Tracking the effectiveness of instruction and intervention.</td>
</tr>
<tr>
<td></td>
<td>• Focusing on increasing student achievement.</td>
</tr>
<tr>
<td></td>
<td>• Seeing learning as the goal.</td>
</tr>
</tbody>
</table>

Core Components of Response to Intervention:

- Solid, effective Tier I instruction evidenced by 80% or more of students meeting benchmarks
- Universal Screening with school-wide data review
- Identification of students who are not making adequate progress toward benchmark (Early Warning System or Watchlist)
- Ongoing progress monitoring to identify students who may be falling behind
- Using the problem-solving process to determine root cause(s) of learning problems
- Targeted and aligned research-based intensive intervention with progress monitoring

Statutory Requirements Met through Implementation of Response to Intervention:

- FS 1008.25(a) – Student Progression Plan Requirements for Intervention
- FS 1008.25(4)(a) Requirements for intervention when students do not score at the proficient level on the Florida Standards Assessment or state-required end-of-course assessments; (b) Requirement for a progress monitoring plan for students not making adequate progress
- FS 1001.42 – Powers of the School Board requiring that schools address students who have multiple ‘watch list’ criteria and provide intervention accordingly

In addition, IDEA and State Board Rule require that a student’s response to research-based intensive intervention serve as the foundation for identification of certain learning disabilities.
This handbook is organized to facilitate a system-wide implementation of Response to Intervention to address improved student achievement. Sections include:

- Definitions and Timelines
- Data Review Processes
- Tier I – Universal Instruction
  - Including Tier I intervention for students beginning to fall behind
- School-based Problem Solving Response to Intervention Teams (IST)
  - Description
  - Membership
  - Meeting Guidelines and Agendas
- Tier II – Strategic Intervention
  - Academic
  - Behavior
- Tier III – Intensive Intervention
  - Academic
  - Behavior
- Considerations Before Convening a Child Study Team
- Forms to be used in the Problem-Solving Process
- Tools to be used in the Problem-Solving Process
- Appendices – Terminology and Frequently Asked Questions

All required forms are noted at the end of each Tier Section. **They are all provided in Section 7 of this handbook.**

**Non-Negotiables in the RtI Process:**

- All retained students MUST be receiving at least Tier II intervention until progress monitoring and summative data indicate that the student is on grade level and not continuing to fall behind.
- No elementary student may be retained whose lack of progress has not been addressed by the school Intervention Support Team. Kindergarten students may be addressed in a documented grade-level meeting with the administrator.
- If attendance is an issue, complete a Tier I Intervention Plan addressing the interventions in place to improve attendance. If attendance does not improve, **follow the guidelines of the school and district attendance policy.** While academic and/or behavioral interventions may be in place, they cannot be delivered or monitored sufficiently if the student is not in attendance.
- Vision and Hearing MUST be checked prior to beginning Tier II intervention.
- A diagnostic (Reading, Math, and/or Behavior) must be administered prior to determining a hypothesis and designing a Tier II intervention.
- No student may be considered by the Intervention Support Team if the teacher has not completed, with two documented parent conferences, the Progress Monitoring Plan.
- All Level 1 and Level 2 students must have at least a Tier I Plan, and Level 1 students should be receiving at least Tier II instruction. This is in accordance with statutory requirements for remediation.
Section I – Definitions and Timelines

SMART GOAL:
Specific, Measurable Outcome – The statement describing the single, specific, desired result of an intervention. To be measurable, the outcome MUST be expressed in observable and quantifiable terms.

SMART Goal –
S – Specific
M - Measurable
A - Attainable (Reasonable)
R – Results Oriented
T – Time Bound

Example: John will demonstrate mastery of (S) grade-level basic math calculation skills as (M-A-R) evidenced by a score of 85% or better on the (T) end of unit test on numerical operations

Tier I – Universal instruction – This is core instruction that is provided for all students.

Tier II – Strategic Intervention – This is targeted small-group instruction provided IN ADDITION TO Tier I instruction. Choice of intervention is guided by diagnostic information.

Tier III – Intensive Intervention – This level of intervention is provided to students who are significantly behind and require a high-level of instructional time guided by diagnostic information.

Increasing Intensity
Increasing intensity means increasing the amount of time and decreasing the group size for the intervention. The target for intervention also becomes more tightly identified and addressed. The times listed are minimum times. If a student is significantly below grade level, the time required for intervention will increase accordingly.

<table>
<thead>
<tr>
<th></th>
<th>Tier I</th>
<th>Tier II</th>
<th>Tier III</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Curricular Focus</strong></td>
<td>Reading: All 5 areas including Written Response and Close Reading Math: As required by curriculum: Fluency, Concept Development</td>
<td>Reading: Less than 5 areas Math: Fewer concepts than presented to class</td>
<td>2 areas or less</td>
</tr>
<tr>
<td><strong>Curricular Breadth</strong></td>
<td>Core</td>
<td>Core + Supplemental</td>
<td>Core + Supplemental + Intensive</td>
</tr>
<tr>
<td><strong>Frequency of Progress Monitoring</strong></td>
<td>A minimum of three times per year at elementary; As determined by the program at secondary</td>
<td>Bi-monthly or more frequently</td>
<td>Weekly or more frequently</td>
</tr>
</tbody>
</table>

Note: A computer-assisted instruction (CAI) program in isolation is not intensive enough to meet the needs of students who require intensive intervention. Any CAI MUST be accompanied by direct teacher intervention and instruction, and progress monitoring must include data collected outside of the CAI program environment to determine if the intervention is closing the gap for the student.
**The Problem-Solving Process**

The problem-solving process provides the foundation for all decision making in the RtI process. Questions to ask include:

- What is the problem? Identification of student learning or behavior need
- Why is it occurring? Working to determine the root cause of the need. This may include missed academic skills, misconceptions and/or the function of a behavior.
- What will we do about it? This defines the intervention, including the intensity, setting, and resources.
- Is it working? This is the review of progress monitoring data, which drives further decision making.

**Teacher Problem Solving:**

- When the teacher or parent recognizes a student problem or need, problem solving steps are initiated.
- Review the student’s cumulative record and all other available data (Focus, basal assessments, PMRN, STAR Math, STAR Reading, etc.).
  - Define the problem in behavioral/observable/measurable terms. Identify the student’s strengths and areas of need.
  - Identify the replacement behavior(s) and/or academic skill(s) needed. These are recorded on the Progress Monitoring Plan.
  - Begin collecting frequent progress monitoring data aligned to the problem definition to determine whether or not the student is responding to the curriculum and/or behavioral expectation of the classroom (a minimum of 5 data points for a baseline).
- Monitor data and schedule follow-up with parent. The teacher must not attempt to diagnose ESE identification (SLD, EBD, etc.) at this time. Communication with the parent must be documented on the Progress Monitoring Plan. A parent must not be told, “I think your child has dyslexia or a learning disability or ADHD, etc”. Making such a statement is outside the realm of teacher responsibility and decision making and places the teacher and district at risk.
- If the data confirms that the student is still performing below curricular or behavioral expectations and that his/her rate of progress is not sufficiently closing the gap, request an Intervention Support Team Meeting. Interventions targeted to the identified behavior/skill gap(s) are implemented with fidelity and progress monitoring and documentation continues to occur until the teacher presents information to the IST and during the IST process.

**Developing an Intervention:**

What is an intervention?

An intervention is a specific academic/behavioral strategy that differs from activities occurring in the student’s classroom. It is designed to provide a struggling student with the necessary skills and academic/behavioral supports to allow him/her to achieve grade-level expectations.

An intervention is not:

- Simply completing a form – an intervention is what you do with the child;
- An assessment, such as a Functional Behavior Assessment, a classroom observation, or a psycho-educational evaluation;
- A change of seating or preferential seating
- A person – a person delivers an intervention, but simply putting a person’s name as the intervention is not acceptable;
- Small group or any other instruction, including going over the same material again, if the instruction is not specific to the student’s identified problem and does not include frequent and ongoing progress monitoring that measures the impact of the instruction on the student’s learning.
- Progress monitoring without targeted intervention
- Parental contact;
- Homework or peer buddies;
- Retention;
- In or out of school suspension

Section II – Data Review Processes

District-Wide Review:
District staff will review district and school data quarterly. The focus will be on common areas of deficiency and positive/negative trends in data. Data reviewed will include, but will not be limited to: DEA (K-5); FAIR-FS (6-12); FLKRS (1st quarter); grade distribution across courses; attendance; discipline referrals; STAR Reading; STAR Math; SRI; Writing data.

School-Wide Date Review:
The periodic review of school-wide data is an administrative responsibility. The purpose of this review is to identify broad areas of concern with Tier I instruction (i.e., a classroom or grade level that is evidencing below average student achievement) and/or to identify subgroups or individual students whose achievement may need attentions.

The Reading/Literacy coach is a valuable partner in this process, but it is the school administrator’s responsibility to schedule times to closely review data. School-wide data review should occur at the end of each 9 weeks.

Teacher Expectations:
- Every teacher must be part of a data review team. The team may consist of a grade level, a department, a cross-curricular team, or other grouping as determined by the school. Special Area teachers such as Art, Music, PE, etc. should be included as specified in the school RtI plan.
- Teams must meet a minimum of four times per year at approximately nine week intervals.

Data to be Reviewed:
State Assessment Data is reviewed at the beginning of each year. A student who scores below proficiency on required state assessments IS AT RISK, and state-required monitoring must occur. The following chart indicates ongoing data that must be reviewed throughout the year to determine if a student is academically at risk. Other data may be reviewed as well. Watch list information must be completed and reviewed with an administrator by the first progress report in September.

</tbody>
</table>
Ongoing progress for students with risk factors in the above categories must be monitored to assure that the student is making adequate grade level progress throughout the year.

Process for Teacher Teams-

Data Meeting #1: To occur prior to first mid-term report
- Review available data on incoming students
- Create initial “Watch List” based on criteria listed above. (A spreadsheet for recording information is available on the district website.)
- Review information on any students already in the RtI process.
- Note ESE students, and review required accommodations. Any time that an ESE student is not making adequate progress, the IEP Team must review the student’s status.
- Initiate Tier I Intervention Plans as necessary.
  - **Contact parents.** The conversation with the parents should be positive. As you note concern, indicate “This is how we want to help your student get off to a good start.”
  - **Implement Tier I interventions through differentiation in the classroom.**
  - **Progress Monitor student growth/success.** (classroom performance/attendance, etc.)

Data Meeting #2: To occur after the first report card.
- Review “Watch List”
  - Review available data. For example: STARMath, STARReading, Grades, Classroom Test Performance
  - Are most students making adequate progress toward benchmark? Based on what data? If not, what changes need to occur to facilitate this?
  - Do any other students need a Tier I Intervention Plan? Note: Unless you are teaching an intervention class, no more than 25% of your students should require a Tier I Intervention Plan. If you have significantly more than this not making adequate progress toward benchmark, please review Tier I instruction.
  - Review Tier I Intervention Plans that were initiated at the first Data Meeting
    - Student(s) making adequate progress toward benchmark – discontinue Intervention Plan and/or continue to monitor;
    - Student(s) not making adequate progress toward benchmark –
      - Continue intervention for a longer period of time;
      - Alter intervention and monitor;
      - Data indicates student in need of more intensive intervention – refer to Intervention Support Team.
  - Note ESE students, and review required accommodations. Any time that an ESE student is not making adequate progress, the IEP Team should review the student’s status.
  - Are there progress monitoring or tool needs that should be communicated to the administration?

Data Meeting #3: To occur after the second report card - (Retention decisions and conversations Do Not happen at this time, but students failing to make required progress must be provided with intervention)
- Repeat steps from Data Meeting #2.
- Important: Is any student in danger of retention?
- Which K – 3 students will require a Reading Deficiency Letter? Based on what data?
- Students in danger of retention must be receiving increased intervention:
  - Elementary: Request an IST – Students in danger of retention must be provided with Tier II/Tier III interventions.
  - Secondary: Communicate names and needs of students to administrator or designee.

Data Meeting #4: To occur shortly before or after the third report card
- Repeat steps from Data Meeting #3
- Elementary: Finalize retention recommendations – pending test scores where applicable.
- Secondary: Administrators should be notified of any student in danger of failing a course.

Data Meeting #5: To occur at the end of the school year
- Review final progress and make promotion/retention decisions. NO student retention should be a surprise to the parent or guardian. The need for intervention and support must have been communicated through the Progress Monitoring Plan and any Intervention Support Team meetings. This should include a final review of the ‘Watch List’.
• Review summer remediation needs.
• Review any transition needs for ESE and/or student receiving tiered intervention (Tier II/Tier III).
• Communicate all student achievement information to the assigned administrator.

Section III—Tier I Instruction

Tier I Instruction is the instruction offered to ALL students. It is standards-based and centered on the core content required for mastery. It is the responsibility of the classroom teacher.

Hier I Instruction includes the following components:

• Classroom data review and analysis to determine pacing and differentiated instruction needs;
• Progress monitoring to assure that all students are making adequate progress toward grade-level expectations;
• Small-group differentiated instruction to target specific instructional needs of students.
• School-wide and class behavioral expectations that are taught through modeling and practice to assure student understanding and mastery.

Any time a student is not on target to obtain a full-option high-school diploma, whether academic or behavior challenges are evidenced, additional scrutiny is required. The expectation for the teacher is the identification of an area of need, contact and clear communication with the parent, ongoing targeted differentiated instruction with progress monitoring, and an additional parent conference to determine if the issue is being resolved.

This process is monitored through the Tier I Intervention Plan (PMP). Instructions for completing the Progress Monitoring Plan are listed below.

Tier I Intervention Plan Step-by-Step Instructions for Teachers

Step 1: Data Review

• Review all student data
• Create Watch List. Prioritize students based on level of need.
• Provide Tier I differentiated instruction with appropriate progress monitoring.

Step 2: Creation of the Tier I Progress Monitoring Plan

When a student is NOT making adequate progress toward benchmark, even with effective differentiated Tier I instruction, additional review is expected. This includes the creation of a Tier I Progress Monitoring Plan. If the majority of students are not making adequate progress a review of the Tier I instruction being offered is required.

• Create a Tier I Intervention Plan (PMP)
  1. Review student data – including historical data. The Student Progress Profile in Focus will be helpful.
  2. Complete the top portion (Items A – B6) of the TIER I INTERVENTION PLAN (PMP).
  3. Schedule parent conference: face-to-face preferred. Due diligence to involve the parent and communicate in parent friendly terms is critical. The parent and student deserve a clear presentation of the identified issue along with ways the teacher is addressing the issue.
  4. Review completed portion of the plan and ask for parental input.
  5. Complete B7 with the parent, including scheduling follow-up date.
• Implement the TIER I INTERVENTION PLAN (PMP) for a minimum of five weeks, including appropriate progress monitoring.
• Follow-up with parent, and review the student’s progress. Complete Items B8 and B9 on the TIER I INTERVENTION PLAN (PMP).
• If the student is not making progress toward benchmark (see instructions at the bottom of the TIER I INTERVENTION PLAN (PMP))
   o Continue or modify the intervention; or
   o Request an Intervention Support Team (IST) meeting/review. If you request an IST meeting, you MUST complete the following BEFORE the meeting can occur. The Progress Monitoring Plan (with two parent conferences), the Student
Progress Profile from Focus, a completed Student Data Form, and a Parent Notification Form. You should also bring any data that you have collected during the implementation of the Tier I plan. THIS IS NOT A FOLDER OF MISCELLANEOUS STUDENT WORKBOOK PAGES. Example: If you are targeting vocabulary, you could provide the last five vocabulary grades (percent correct). You should also bring an example of how you are teaching and progress monitoring this skill.

- The Gap Analysis should be completed by the Reading Coach or Guidance Counselor prior to the IST Meeting. **If no gap is evidenced, support should be provided to increase the effectiveness of Tier I instruction.**

From this point forward the teacher is supported and the intervention is monitored by the Intervention Support Team.

Step 3: Intervention Support Team Review –
- The parent must be invited to all IST meetings after the initial meeting.
- After initial review of the student’s progress to date, any additional diagnostic assessment(s) must be scheduled to provide sufficient data to determine the root cause and intervention.
- Create Tier II Plan. Schedule time to review student progress.
- Implement and Progress Monitor Tier II Plan. A Tier II Parent Conference is required (page 39).
- Meet to review data and determine student’s response to intervention. If necessary, move to Step 4. The student may remain at Tier II indefinitely if the interventions are serving to close the student’s achievement gap. If the student’s achieving is improving significantly, the plan may be scaffolded back to Tier I.

Step 4: Create Tier III Plan
- The parent must be invited to all IST meetings.
- Review student data.
  - Is the intervention being delivered with fidelity? At sufficient intensity (time on task and group size)?
  - Does the intervention match the identified root cause?
- Schedule time to review student progress.
- Implement and Progress Monitor Tier III Plan. The parent must be involved. A Tier III Conference is required.
- Meet to review data and determine student’s response to intervention. If necessary, move to Step 5. The school Staffing Specialist must be involved if the IST determines that a Child Study Team will be necessary.
  - **Note:** This is not a lock-step process. **Student’s may require several months at Tier II and/or Tier III before sufficient data is collected to determine if the student’s response to intervention is positive, neutral, or negative.**

Step 5: Convene a Child Study Team -
- The Child Study Team determines whether to move to an evaluation.
- Prior to having the parent sign a consent form, MTSS staff review the file and the district RtI Contact is involved if additional data is needed or steps in the process are missing.
- An evaluation consists of a review and compilation of the student’s and comparison data resulting in a report that can be used to determine eligibility or ineligibility.

**Documenting Tier I Interventions:**
When students begin to struggle with academic or behavioral issues, the classroom teacher selects and implements one or more research-based intervention strategies to assist those students. This could include, but is not limited to, additional small group time, more targeted instruction during small group time, short-term individualized assistance, more frequent conferencing for goal setting, checking work more frequently during independent work time, behavior modification strategies, etc. A strong intervention plan requires more than just well-chosen interventions. According to Witt, VanDerHeyden, and Gilbertson, 2004, four additional components include:

1. Student concerns (targeted area) should be clearly and specifically defined;
2. One or more methods of formative assessment should be used to track the effectiveness of the intervention;
3. Baseline student data should be collected prior to the intervention; and
4. A goal for student improvement should be determined at the beginning of the intervention to judge whether that intervention is ultimately successful.

If one of the above is missing, the intervention fails to meet minimum RtI standards.

The **Tier I Intervention Plan (PMP)** Form is the standard format for documenting Tier 1 interventions. It contains the following:
Definition of student academic or behavioral problems (along with recognition of student strengths) – The most significant step in selecting an effective classroom intervention is to correctly identify the target student concern in clear, specific, measureable terms (Bergan, 1995). While there is room to note two, the teacher is asked to choose one target area on which to focus.

Intervention description aligned to targeted need – The teacher describes the research-based intervention(s) that will be used to address the identified student concern.

Intervention Delivery – Details necessary for implementing the intervention in the classroom. These include where and when the intervention will be used, the pupil/teacher ratio, frequency of intervention, length of each session, and materials needed/used. During the intervention period the teacher notes the frequency with which the intervention is delivered. This includes attendance data, since the student is not receiving the intervention if he/she is absent, and notes regarding interruptions to the intervention schedule (i.e., field trips, assemblies, fire drills, etc.). This can be documented through the teacher’s plan book and/or a simple monthly calendar.

Assessment Data – For each intervention, the teacher selects data that will be formatively collected throughout the intervention period to judge the effectiveness of the intervention. For each data source, the teacher collects baseline data on student performance and determines an outcome goal that the student is expected to attain if the intervention is successful. The teacher should maintain this data to help determine how the student is responding to the intervention. In Tier I, this data aligns closely with grades, but should be discrete enough to determine if the student is making progress.

Checkup date – The teacher notes the date on which the intervention will be reviewed to determine whether it has been sufficiently effective. The plan is not complete unless one has determined when a follow-up will be done with the parent. Note: Academic interventions normally take a minimum of four instructional weeks to determine if the intervention is having positive effect.

It is important that the teacher realize that he/she is not alone in this endeavor. The Reading Instructional Coach is available to assist with this process. In addition, conversations with instructional team members are invaluable in the problem-solving process.

interventioncentral.org
# Tier I Intervention Toolbox

**Wakulla County Schools**

## Tier I: Academic

**Core Curriculum:** All Students

*Note: Small group flexible grouping based on student need is a core component of Tier I.*

### Reading Core Curriculum
- Florida State Standards for ELA and Course Descriptions
- K – 5: Journeys (Harcourt Houghton Mifflin), Leveled Readers, Reading in Science and Social Studies
- 6 – 12: Collections (Harcourt Houghton Mifflin), Reading in the content area
- K – 5: 120 minutes of ELA instruction/day; 90-minute uninterrupted reading block
- 6 – 12: Instruction in the ELA Course combined with Content-Area Reading
- K-1: Expanding Expressions

#### Whole Class and Small Group Instructional Strategies
- Direct instruction in the areas of reading based on class data and course standards (PA, phonics, fluency, vocabulary, comprehension, oral language)
  - Spelling patterns, word work, repeated readings, choral reading, poetry connections, roots and affixes, retelling/story mapping, text structure for literary and informational text
- Close Reading with Text-based Writing
- Word Wall
- Oral Language Development (K – 2)
- Computer-Assisted Instruction: Moby Max, Accelerated Reader
- CRISST Strategies, Kagan Structures, Whole-Brain Teaching
- Differentiated Instruction
- Shared Writing
- Craft and Structure
- Foundational Skills (Kindergarten)

### Math Core Curriculum
- K-5: Harcourt GO Math, High-Yield Routines
- 6-12: Math Adopted Texts with Ancillary Supports

#### Whole Class and Small Group Instructional Strategies
- Math Manipulatives
- Modeling
- Explicit Math Instruction
- Automaticity of Recall of Basic Facts (addition, subtraction, multiplication, division) as aligned to course standards
- Problem Solving with Students Explaining Answers
- Higher Order Thinking Skills

### Progress Monitoring
- School and district-wide assessments
- Assessments associated with the Core programs

## Tier I: Behavior

**Universal Instruction:** All Settings and All Students

### School-wide expectations and rules
- Stated in observable, measurable, and positive terms
- Positive Behavior Support System (PBIS)
- Positive Parent Contacts

### Social Skills
- Model and teach acceptable ways to obtain attention and how to ask for assistance
- Teach communication skills
- Model respect

### Classroom Management Techniques
- **Automatic RtI**
- Model and teach routines
- Classroom Behavior Plan
- Greet students by name at the door
- Provide frequent positive attention; Ignore inappropriate behavior while reinforcing a peer who is practicing expected behavior
- Build “wiggle” breaks into schedule
- Alternate teaching strategies to maintain attention span
- Cooperative Learning Structures (i.e., Whole Brain Teaching, Kagan Structures)
- Develop clear procedures for classroom tasks

### Character Education Curriculum
**Tier I Checklist:**
The following tasks must be completed in Tier I by the classroom teacher.

### RtI Tier I Checklist for the Teacher

- Teacher determines, based on data, that student is not making adequate progress toward benchmark.
- Hold Parent/Teacher Conference and discuss student performance with parent and develop a plan (TIER I INTERVENTION PLAN (PMP)) to address area(s) of concern.
- Provide any materials to parent for home intervention.
- Implement (with fidelity) TIER I INTERVENTION PLAN (PMP) intervention plan for a minimum of 4 weeks. The student must be in attendance to receive the intervention. Classroom/school interruptions that prevent the delivery of the intervention must be noted. (Calendar)
- Progress monitor regularly. Maintain data points for progress monitoring. A minimum of five data points (baseline plus four more) are needed to create the aim line.
- Review effectiveness of Progress Monitoring Plan with the Parent – 2nd Contact. Complete the remainder of the Progress Monitoring Plan.

### Decision Making by Teacher and Parent at Tier I

- Intervention plan successful: Discontinue Tier I Intervention Plan. If the intervention was successful, it is not necessary to proceed to IST.
- Revise and/or continue TIER I INTERVENTION PLAN.
- Request IST Meeting

### If an IST Meeting is Requested, Teacher Must:

- Complete Student Data Form. - If Hearing/Vision information is not available, this will have to be completed.
- Have parent sign Parent Notification of Intervention Activities/Screening Form
- Print RtI Student Progress Profile from Focus; Also include other pertinent data such as STARReading, STARMath, classroom assessments, etc.
- Sign up for IST

- Continue differentiating instruction by providing intervention for the student.
Tier I Forms:
The following forms guide the Tier I processes. The forms are available in Focus.

- **Tier I Intervention Plan (PMP)** - This is completed by the classroom teacher in cooperation with the parent.

The following Tier I forms are only necessary IF the teacher is requesting review with the Intervention Support Team.

- **Student Data Form** – The vision and hearing screening information may be added in the first IST. The screening results must be current (within the past twelve months).
- **Student Progress Profile** – available in Focus. Also include any other data that may have been collected as the intervention has been implemented.
- **Parent Notification of Intervention Activities/Screening Form** – This form requires a parent signature and assures that the parent is involved from the beginning of intervention with the student.

Tier I Behavior
If a student is exhibiting behaviors that are disruptive or that are interfering with the learning of self or others, there is a need to look at behavior. At Tier I, the focus for behavior is on the following:

- Consistent school-wide and classroom behavior expectations
- Expectations that are clearly communicated, modeled, taught, practiced, and reinforced
- Support for learning needs to prevent frustration and defeat
- Ongoing positive communication with home
- Motivational activities to engage the student
- Learning strategies that align with the learning and developmental needs of the student

*Automatic RtI provides suggestions for setting up the classroom and following through with behavior support when students do not adhere to the expectations. All K-5 classrooms have been provided with this tool. It is available through the Reading Coach at the other levels.*

[http://www.pbisworld.com/tier-1/](http://www.pbisworld.com/tier-1/) also provides a comprehensive list of Tier I interventions that are appropriate and effective in the classroom.

Note: At any time that a student poses a danger to self or others, or the behavior is dramatically out of line with expected norms, the teacher should report the behavior immediately to the Guidance Counselor and Administrator.
Intervention Support Team Requirements and Resources

Tier II
Tier III
Section IV – School-based Problem Solving Response to Intervention Teams (IST)

Function of the Intervention Support Team
The Intervention Support Team (IST) applies the problem-solving process to determine the root cause of student learning and/or behavior challenges that the classroom teacher, in conjunction with the parent, is unable to resolve through differentiated core instruction. The IST convenes after the teacher accomplished a preliminary hypothesis and implemented differentiate core instruction targeted to meet the student need. Evidence of this is presented on the completed Progress Monitoring Plan that is reviewed at the first IST on a student.

The focus of the IST is on data review of universal screening and diagnostic information and on the development of research-based interventions to address the learning and/or behavior challenges presented. This includes a Gap Analysis to determine overall effectiveness of Tier I instruction in the classroom, additional diagnostic assessment, and the development of a Tier II and/or Tier III Intervention Plan that outlines the plan to address the student’s need.

The IST supports the teacher by providing resources, program and personnel, to assist with the increasing intensity of intervention required to address the needs of the student. It also monitors the implementation and process of the intervention plan to assure that interventions are targeted and delivered with fidelity.

Should it be deemed that the learning and/or behavior issue is so severe that it requires ongoing support beyond the general education classroom, the IST assures that appropriate steps and documentation have occurred to move seamlessly into a Child Study Team for further evaluation.

Membership of the Intervention Support Team – Roles and Responsibilities:
While membership on the Intervention Support Team may vary from school to school the following individuals should be considered: (* indicates mandatory membership)

*Administrator – Principal or administrative designee/act as RtI Coordinator, required
*Student’s Classroom Teacher(s) – This is the person or person(s) bringing the student information to the ISTs
*Parent(s) – While the parents may not be involved in the first IST on a student, they MUST be invited to subsequent meetings. IDEA 2004 legislation requires that parents be involved with the intervention process. An invitation letter is included in this handbook
School Psychologist - at Tier III
Guidance Counselor
Staffing Specialist – at Tier III
Speech Therapist – helpful in designing interventions for language difficulties
*Reading Coach and/or Content Specialist – as needed for intervention support
Other classroom or resource teachers or support personnel – as needed

Intervention Support Team Member Responsibilities:
Student’s Classroom Teacher:
- Pulls data for the Student Progress Profile, Student Data Form, Progress Monitoring Plan (with parent input), and Parent Notification Form prior to the meeting.
- Documents parent contact and input (see TIER I INTERVENTION PLAN (PMP))
- Follows up with parent after the IST meeting if parent is not present

IST Administrator-RtI/MTSS Coordinator:
- Arranges for teachers’ classes to be covered
- Provides adequate meeting space and time for meeting
- Secures resources for intervention
- Assures fidelity of intervention implementation through classroom observations and data review

Parent(s):
- Provides relevant home/community information
- Provides relevant medical/social information
• Collaborates with school personnel in implementing interventions

Guidance Counselor:
• Available for consultation, particularly on behavioral interventions
• Communicates with district ESE personnel and psychologist as necessary
• May administer screenings as necessary

Reading Coach:
• Administers academic diagnostic assessments and reports to IST
• Pulls data reports as needed and presents at IST
• Provides intervention information and support to the teacher
• May assist with some intervention implementation
• May provide some resources or help teacher organize data collection
• May provide training on intervention implementation or data collection techniques

School Psychologist: (Tier III)
• Contributes expertise in evaluation of outcomes, data collection, data analysis
• Identifies strategies, materials, and resources for interventions
• Provides guidance in decision-making regarding assessment issues
• May assist with collecting diagnostic or screening information as request by the IST.
• Graphs data provided by the teacher

Staffing Specialist: (Tier III)
• Provides screening and diagnostic information, as necessary at Tier III
• Serves as liaison with ESE and Student Services
• Coordinates the move to a Child Study Team if ongoing student data indicate the need for this
• Provides the Consent Form if a student is to be evaluated

Other Teachers or Support Personnel:
• Contribute information regarding instructional methodologies and curriculum
• Assist in developing interventions from their area of expertise
• Provide support for interventions to the student’s classroom teacher
• May manage paperwork generated by the IST process

Assigned Roles and Duties of Team Members
The following are suggested roles to assure smooth implementation of the IST process. They may overlap or vary depending on the organization of the team.

The Gap Analysis should be completed BEFORE the first IST. The Reading/Literacy Coach can assist with this. If there is not a sufficient gap, there is no need for an IST to convene.

MTSS/RtI Coordinator - IST Administrator:
• Non-rotating role
• Coordinates completion of required IST documentation, providing support to referring teacher when necessary; may take notes during the meeting
• Assures teacher has copy of sample agenda prior to meeting
• Maintains calendar and notifies members of dates and times as necessary
• Assures that the teacher leaves with a copy of the Tier plan with the requirements of the intervention delivery and progress monitoring expectations clearly identified
• Coordinates completion of referral paperwork if an ESE referral is necessary
• Establishes and maintains a supportive atmosphere
• Keeps the meeting goal oriented by following agenda
• Assigns a timekeeper to manage time constraints during the meeting
• Pays special attention to group problem solving process issues
• Attempts to elicit appropriate level of agreement during the process
• Points members back to available resources in the meeting (MTSS Handbook, PreReferral Manual, etc.)
• Works to assure understanding of issues

**Intervention Liaison (Often the Reading Coach or a Content Specialist)**

- Supports the teacher in the delivery of the intervention and progress monitoring through training, delivery of resources, and follow-up
- The teacher must know to whom questions should be directed in case of difficulty with the implementation of the intervention(s) and progress monitoring.

The *MTSS Handbook* must be available and open at every meeting. The toolboxes and other helps should be the first source of information when looking to implement interventions.

- Special attention should be given to the ‘Defining the Problem’ and ‘Narrowing the Focus’ Forms in the Appendix

Other Resources that should be available:

- The Red Book – *Pre-Referral Intervention Manual*, Hawthorne
- Core Program Intervention Tools

When questions arise concerning a student in the IST process, district staff members are available to assist the team in making decisions concerning intervention and progress monitoring.
**Intervention Support Team Sample Meeting Agenda - 1**<sup>st</sup> Meeting on a Student

***Complete Gap Analysis prior to first meeting. (Reading Coach or other Administrative Designee may facilitate this.)***

<table>
<thead>
<tr>
<th>Time</th>
<th>Task</th>
</tr>
</thead>
<tbody>
<tr>
<td>~ 1 min.</td>
<td>Introductions as necessary (required when parents are present) Facilitator reviews the agenda as necessary</td>
</tr>
</tbody>
</table>
| ~2 min. | Inventory, Student Strengths and Talents – This information is taken from the TIER I INTERVENTION PLAN (PMP). It is not a general discussion. Care should be taken to focus on data over perception.  
  - Team discusses student’s strengths;  
  - Team identifies rewards or incentives that help motivate student. |
| ~3-5 min. | Assess Concerns – Why is this student being brought to IST? **What data indicates that the student is performing more poorly than at least 80% of the class?**  
  - Chair or Teacher summarizes referral concerns;  
  - Team Members share any additional concerns  
  - Team members review relevant background information (Student Progress Profile, Student Data Form, TIER I INTERVENTION PLAN (PMP)) |
| ~3-5 min. | Review Baseline and Intervention Data:  
  - Teacher summarizes interventions implemented prior to IST meeting and discusses parent contacts;  
  - Teacher reviews student response to Tier 1 intervention and any baseline data collected *(TIER I INTERVENTION PLAN (PMP) and any available Progress Monitoring Data)*;  
  - Team discusses:  
    - What appears to be the root cause of the student’s problems? *(See Defining the Problem forms)*  
    - What, if any, additional data is needed to make this determination? *(If additional diagnostic information is needed, assign who will be responsible for administration and reporting back.)* |
| ~5 min. | Set Academic and/or Behavioral Goals:  
  - Team selects and defines the top concern in easily observable and measurable terms (Long-Term Goal);  
  - Team sets an ambitious but realistic, observable, and measurable goal that is attainable in 4-6 weeks (Short Term Goal) |
| ~5-10 min. | Design an Intervention Plan:  
  - Team develops at least one intervention to address the concern;  
  - Team selects at least one method or tool to monitor student progress for each intervention (must align with the intervention and the targeted area of need);  
  - IST Coordinator documents the plan, including series of specific teacher-friendly intervention steps, when and where it will be implemented, materials required, measures to monitor student progress, how frequently progress data will be collected, and person(s) responsible for intervention and progress monitoring. |
| ~2 min. | Review Intervention Plan:  
  - Recorder reviews main points and asks attendees to sign *Participation Notes Form* *(See Page 34)*  
  - Facilitator elicits any final concerns; assures that teacher understands plan and who to go to for help  
  - Chairperson schedules follow-up meeting and reminds teacher to follow up with parent.  
  **TEACHER MUST LEAVE THE MEETING WITH A COPY OF THE INTERVENTION SUPPORT TIER PLAN.** |
## Sample Follow-up Meeting Agenda

**The parent MUST have been invited in a timely fashion to this meeting.**

TEACHER MUST LEAVE THE MEETING WITH A CURRENT COPY OF THE INTERVENTION SUPPORT TIER PLAN.
Section V – Tier II Instruction

Tier II instruction is strategic in nature. It is in addition to, not in place of, Tier I instruction. Tier II instruction recognizes that the student must have more instruction in a smaller group setting in order to close the gap between current achievement and expected achievement. The increasing intensity must also narrow the focus to address the root cause of the learning and/or behavior problem.

Tier II instruction is delivered in addition to the 90-minute reading block, but within the 120-minute required ELA time. Math Tier II may be delivered within the 90-minutes of required math. It must be in a small-group (3 –7) setting within the classroom. The intervention must be delivered no less than 45 minutes per week.

Tier II instruction includes the following components:
- Continuation of differentiated Tier I instruction
- Monitoring and support of the School Intervention Support Team
- Elimination of vision or hearing as root causes of the problem
- Additional or more in-depth review of diagnostics to determine the root cause of the problem
- Research/evidence-based resources used with fidelity
- Additional small-group instruction directly aligned to the targeted area of need
- A minimum of bi-weekly progress monitoring
- Increased parent involvement

Problem Solving Tier II Activities:

1. **Describe the Student’s Performance Profile (provided on Student Progress Profile Form and other available data):** During problem solving at Tier II the IST reviews information such as vision, hearing, health, and attendance. A Gap Analysis must have been completed to determine if the issue is affecting the one student or if it is a problem with Tier I instruction. Through discussion with the teacher and parent, the team further defines the student’s performance profile. Screening information and a review of any diagnostic information confirm the existence of discrepant academic skills or behavior compared to other children. It also rules out any medical or physiological issue that may be impacting the problem. This process helps estimate the severity of the area(s) of concern. The Team is seeing to answer the questions ‘how far behind is this student?’ and ‘what will it take to catch him/her up?’

2. **Develop a Plan:** The IST then works with the teacher to develop strategies that s/he can use to address the problem. Parents and teacher agree upon a reasonable intervention by listing possible solutions based on information from the data collected. Tier II data must include diagnostic information, whether for reading, math, and/or behavior. Strategies are developed that offer solutions that have a reasonable probability of success based on research and knowledge of effective practice. Solutions should be feasible and acceptable to the teacher and able to be implemented in the classroom with integrity. A Tier II Intervention Plan must include specific procedures and strategies, person(s) responsible, objectives with specific criteria, methods of measuring outcomes, date(s) on which activities will occur, an observation for instructional fidelity and a time for the IST to review student progress.

3. **Implement the Plan:** The teacher and other responsible individuals implement the intervention. At this level, progress monitoring data aligned to the targeted intervention must be collected weekly or biweekly depending on the duration and type of the intervention. Data collection must be consistent enough so that a graph could be created from the data. Four data points are a minimum required to establish a usable aim line.

4. **Evaluate Progress:** If the student’s performance does not improve at an acceptable rate, the general education intervention is modified. This process recycles as often as needed or the IST may decide to increase intervention to Tier III if:
   - An ongoing review indicates that sufficient change has not occurred;
   - Parents request involvement of additional resources;
   - The intensity of the required interventions is impacting the achievement of other students; or
   - The team desires assistance in gaining new knowledge regarding the identified area of concern.
The following are indicators of when to consider moving from Tier II to Tier III:

- Anytime the IST determines a need for more assistance to determine the appropriate resources for a student;
- Anytime a "red flag" appears. See the sample list of red flags (indicators of a need for intensive interventions) below.
- If given the current plan, the student is not making anticipated progress toward benchmark, even with Tier II intervention. Teams are cautioned not wait to until problems become so severe that the situation negatively impacts the students and/or teacher due to intensity of the intervention required.

Sample “Red Flags” for moving to Tier III:

- Student moves in from another district or area with interventions/services provided in the past;
- Student moves in and appears to have had very different instruction or has significant gaps in learning;
- More specialized assessment data is needed to determine the cause of the problem;
- Student has been referred to the IST in the past a number of times and specific strategies have been provided;
- Student has had significant medical trauma or mental health concerns or issues;
- FSA Level 1 for multiple years;
- Functioning below the 15th percentile on multiple assessments (FAIR, SAT10, STAR Math, etc.)
- Student requires excessive individualized instruction, re-teaching, and 1-on-1 assistance;
- Student does not meet grade level standards and benchmarks in more than one academic area;
- Student appears unable to successfully participate in any academic activities;
- Student is potentially harmful to self or others;
- Behavior consistently interferes with learning of self or others in the classroom, even with consistent Tier II intervention;
- Behavior significantly disrupts classroom functioning;
- Severe behavior problems have been seen over time
- A student who is not on track for a full-option diploma after a year in Intensive Remediation.

Tier II Behavior

If after ongoing Tier I intervention, a student continues to exhibit behaviors that are disruptive or that are interfering with the learning of self or others, strategic intervention becomes necessary. All Tier II interventions occur in addition to interventions in place from Tier I. At Tier II, the focus for behavior is on the following:

- Determination of the function of the behavior – why is the student exhibiting this behavior?
- Focus on one or two behaviors, rather than on overall behavior
- Explicit communication, modeling, and practice of the desired behaviors (replacement behavior)
- Removal of stimuli, as possible, that may be accelerating the behavior
- Support for learning needs to prevent frustration and defeat
- Individualized weekly/daily communication with the home, still attempting to focus on positives
- Learning strategies that align with the learning and developmental needs of the student
- Problem solving with the Intervention Support Team to determine effective interventions
- Narrow the focus of the intervention to build in success for the student.

Automatic RtI provides a protocol for providing intervention at Tier II when the student fails to adhere to the expectations. All K-5 classrooms have been provided with this tool. It is available through the Reading Coach at the other levels.

Other Resources for Interventions:

http://www.pbisworld.com/tier-2
http://escambia.k12.fl.us/pbis/rtib/Tier%202%20Intervention%20Toolbox.pdf

These are used in conjunction with the problem-solving process in the Intervention Support Team.
Tier II Intervention Toolbox

(This is not an all-inclusive list but is meant to provide guidance as intervention is planned.)

**Tier II: Academic**

Strategic Intervention: Students not responding to core curriculum

| Small group (3 –7 students), targeted, a minimum of 3 times per week, a minimum of 45 minutes per week |

**Tier 2 strategies must be intensified (smaller group size, more explicit instruction, more time, additional or alternate materials) as identified by increased diagnosis of need. Progress monitoring aligned to identified need must occur bi-monthly or weekly to determine student response to intervention. Instructor must be highly qualified and trained to deliver the intervention. Tier II intervention occurs in addition to, not in place of, Tier 1.**

- **READING STRATEGIC INTERVENTION: Small Group (diagnosis, targeted instruction, and intensity must exceed Tier I small group)**
  - Harcourt Journeys Strategic Intervention Kit
  - Elementary – Targeted and documented intervention within the 120-minute ELA instructional time, that is in addition to core instruction
  - i-Ready
  - Middle School/High School – Intensive Reading –Teengagement; intervention portions of Collections, Achieve 3000
  - Read 180/System 44
  - Scaffolded support with ELL and Below Level support materials that are part of the adopted text
  - Additional small group instruction in reading – targeted to a data identified need
  - SRA Reading Lab (Must specify minutes per day and must serve as a follow-up to direct instruction)
  - FCRR Center Activities (K-5) and Empowering Students Instructional Routines – must be targeted to data identified need and specifically identified by skill
  - Intermediate REWARDS (Elementary – grades 4/5)
  - 7th Grade Level 1 Reading - Social Studies REWARDS Plus; 8th Grade Level 1 Reading – Science REWARDS Plus
  - PALS – Peer Assisted Learning Strategies (K-5)
  - Language Lab – housed with the Speech-Language Pathologist (K-5)

- **MATH STRATEGIC INTERVENTION: small group (diagnosis, targeted instruction, and intensity must exceed Tier I small group**
  - GOMath – Strategic Intervention
  - GOMath Soar to Success
  - Accelerated Math

**Targeted**

- Reading fluency interventions (repeated reading, listening passage preview) specifically targeted to a small group, which includes the Tier II student
- Additional class periods at middle and high school
- Extended learning (e.g. after school)
- Generic use of flashcards is not an acceptable intervention

- **Progress Monitoring**
  - Bi-monthly or more often – Curriculum Based Measurement aligned to targeted skill area (ex. DEA, FAIR- FS OPM, ORF, STAR Math)
  - Maintain data on Ongoing Progress Monitoring Documentation Chart and Fidelity Tool

- **Individualized Diagnostic Assessment (required) - Administered by Reading Coach**
  - ERDA – Reading, K-3
  - DAR – Reading, 4-12
  - STARMath – 1 – 8-10
  - CORE Assessments, K-12

**Tier II: Behavioral**

Targeted Group Interventions: Some Students (At-Risk)

- Must administer at least a simple FBA.
- The focus is on identifying the function of the behavior and training/modeling/reinforcing expected behaviors
- Small group counseling
  - Provided by guidance counselors, school psychologists; Topics determined by student need
- Small group behavior intervention plan
  - PBIS targeted interventions
  - Bullying prevention
  - Check in/Check out system
  - Use board and card games (e.g., Sorry, Candy Land, UNO, Go Fish) with small groups to teach social skills
  - New Horizons
  - Automatic RtI (targeted) – K-5
  - Direct instruction and practice of the replacement behavior

- **Classroom Management**
  - Individualized daily note home
  - Altered routine (special tasks, shorter work periods with activity interspersed, etc.)
  - Specialized Goal Chart or Written Out Schedule
  - Sociogram with activities to include isolates (http://www.behavioradvisor.com/Sociogram.html)

- **Other**
  - Mentor

***Full FBA with aligned BIP required prior to increasing intensity of intervention to Tier III.***
### Tier II Checklist of Required Activities:

**Rti Tier II Checklist**

- Complete *Gap Analysis Form* (page 40) prior to first *Intervention Support Team* meeting
- Hold IST Tier II Meeting(s) as needed to determine and monitor interventions.
- Look at effectiveness of Tier I instruction (80/20).
- Maintain *Intervention Support Team Participation Notes Form*
- Determine if additional data is needed and plan for obtaining this data.
- Administer the aligned individual diagnostic and review results to assist with intervention planning. Diagnostic report must be a part of the documentation.
- Complete the *Exclusionary Factors Form*
- Follow-up with parents if not present at IST meeting. **NOTE:** Parents must be invited to all IST meetings after the initial meeting. If they do not attend, a follow-up call is expected.
- Implement Tier II intervention plan for 40 days to four months.
- Progress monitor weekly or bi-weekly. Maintain *Ongoing Progress Monitoring Documentation Chart and Fidelity Tool* indicating dates and times Tier II intervention occurred.
- Look at progress of student against progress of class.
- Review effectiveness of Tier II Intervention Plan.
- Complete one *Classroom Observation Form*
- Administrator verifies Instructional Fidelity by initialing on the *Ongoing Progress Monitoring Documentation Chart and Fidelity Tool* after an observation of the intervention has been conducted.

**Decision Making by IST at Tier II**

- Intervention plan successful: Discontinue Tier II Plan and scaffold back to Tier I
- Intervention successful: Write new Tier I plan, if needed.
- Revise and/or continue Tier II Plan.
- Increase Intervention to Tier III.

**If Intervention is Increased to Tier III:**

- Chart/graph data with trend line.

- Academic - Assure that an individualized diagnostic has been administered and that the intervention is planned based on the diagnostic data. (ERDA, DAR, G’MADE) **Required**
- Behavior – Assure that an FBA has been administered. **Required**

**DO NOT PROCEED TO TIER III WITHOUT ALL OF THE ABOVE!**
Tier II Forms
In addition to the forms completed at Tier I, the following forms are used to monitor the Tier II process. They are required. They are completed with the support of the Intervention Support Team. Do not give a teacher a packet of these forms to complete in isolation.

Tier I Gap Analysis – completed before the first IST meeting. The Reading Coach or Administrator’s designee can facilitate this. No gap – No IST.

Intervention Support Team Folder Checklist - A folder/binder to maintain the paperwork and documentation is created at Tier II. This is maintained by the IST Coordinator and updated at each meeting. Folders are purple. Binders are white.

Intervention Support Team (IST) Meeting Invitation – This is a sample that may be used to communicate with the parent. Documentation of emails and/or phone calls, along with the record of the parent’s attendance may be used in lieu of this form. Best practice includes the use of the Communications Tab in Focus for documentation of ongoing parent contacts.

Note: Failure to obtain paperwork from the parent does NOT stop the process.

Intervention Support Team Participation Notes – This is an ongoing documentation of attendance and notes from Tier II and Tier III meetings. Put the date at the top of the column and have each participant sign at the first meeting and initial thereafter.

Tier II Plan – Academic – This plan must clearly delineate the expectations for intervention delivery and progress monitoring. The teacher should be given a copy of the plan at the end of the meeting, and the original must be maintained by the IST Leader.

Tier II Plan for Behavior is the Behavior Intervention Plan.

Additional Pages as Necessary – use these pages to alter the intervention if necessary when the level of support is not being increased to Tier III.

Ongoing Progress Monitoring Documentation Chart and Fidelity Tool – This is kept by the teacher and presented with updated information at each subsequent meeting. It documents when the intervention occurred along with the progress monitoring data. For graphing purposes, the data may be transferred to the Progress Monitoring Record Form.

Parent Conference Form – Tier II – This form documents parent involvement during Tier II. It can be completed by the teacher or as a result of the IST meeting, which the parent attended.

Classroom Observation Form – A classroom observation is required once in Tier II and once in Tier III. The observation may be completed by the administrator or his/her designee.

Exclusionary Factors Form – This form documents that extenuating circumstances or conditions which may negatively impact learning and/or behavior have been considered in the problem-solving process.

Diagnostic Report – A summary of the diagnostic information considered in the problem-solving process must be included at Tier II. This may be updated for subsequent meetings.

When the Intervention Focuses on Behavior:
When the intervention is needed to address behavior concerns, a simple or complete Functional Behavior Assessment (FBA) must be completed prior to designing the Tier II intervention. The results of the simple FBA must be included in the documentation for Tier II. The Tier II Behavior Plan, also known as a Behavior Intervention Plan (BIP), must be based on the information obtained in the FBA. If intervention increases to Tier III support, a complete FBA is required.
Section VI – Tier III Instruction

When a student’s achievement is multiple years below grade level or when a learning or behavior problem, while managed, is not improving, the Intervention Support Team may increase the intensity of the intervention to Tier III. Tier III is the highest level of intervention in the general education classroom and should be required for five or less percent of all students. The focus of this level of intervention, as with Tiers 1 and 2, is on the delivery of instruction, not the completion of forms. Fewer than 5% of all students outside of ESE should require this level of service. This means that in a school of 600 students fewer than 30 students would require a level of service at Tier III intensity.

When an area of concern is complex in nature, additional resources are often required. Support personnel such as school psychologists, district support, and other specialists may be asked to participate on the problem-solving IST. The intent continues to be the provision of interventions in order to help the student perform successfully in the general education environment. A member from the IST will act as the primary case manager and will assist with documentation, intervention design, implementation, and follow up. Reviews, interviews, observations and testing will be done to further define and analyze the area of concern. Interventions are designed and data are gathered frequently to evaluate effectiveness.

Parent input continues to be a critical component at Tier III. Tiers II and III of this model are connected. There are, however, primary distinctions between Tiers II and III.

1. Tier III instruction occurs in addition to Tiers I and II. For elementary reading, this means outside the 90-minute reading block. Recent research indicates that students who are two or more years behind in reading may require an additional 100 minutes or more of instruction per day.
2. Tier III instruction occurs daily for a specified amount of time.
3. Tier III instruction is delivered by a trained individual.
4. Tier III instruction must include face-to-face direct instruction by the teacher, and the teacher must administer and review progress monitoring information. This means that a computer program used in isolation does not meet the criteria for Tier III instruction.

Evaluating Progress in Tier III:

To determine the intervention’s effectiveness, the decision-making plan should be used at the identified frequency. It is important to consider not only the student’s level of performance, but to also consider the rate of the student’s progress. Possible outcomes when evaluating an intervention include:

- The discrepancy between expected and observed behavior of the student no longer exists. The student is expected to benefit from instruction in general education without significant modifications or adaptations. This means that the level of intervention may be decreased, although progress monitoring will continue to occur.
- The student is making progress toward the goal, but continues to need the intervention in order to maintain the current rate of progress.
- The student is not making progress at the rate expected and the plan needs to be revised or modified in order to obtain the expected rate of progress. The purpose of ongoing, frequent progress monitoring is to provide the necessary data for making instructional changes when they are warranted. A successful intervention may have multiple phases as changes (based on data) are made. It may also be determined that a Child Study Team should be convened on this student.
- One other possible outcome may be that the intervention is successful but the resources needed to maintain the intervention are beyond what can be reasonably continued in a general education classroom. This may also warrant the convening of a Child Study Team.

When an ongoing review of performance in the area of concern indicates change has occurred more slowly than needed to “close the gap” with peers or when resources needed for intervention plans are more than can be supported and delivered solely through general education, it is time to consider convening a Child Study Team (CST) and opening the ESE door.
Who determines when to convene a Child Study Team to consider eligibility for ESE services?
The Intervention Support Team (IST) makes this decision collaboratively. The decision is based upon the data indicating the student’s lack of response to intervention and the layering of support the student is receiving.

However, prior to obtaining Consent to Evaluate from the parent, the Response to Intervention must be reviewed by the district Instructional Services Office.

Steps for Submitting an RtI Folder:
1. School reviews folder and assures that the contents are in the order as required by the Folder Checklist Form.
2. School submits the folder to the Instructional Services Office.
3. Instructional Services personnel log the folder in and review the contents for compliance with problem-solving process.
4. Instructional Services personnel either
   a. Send the folder back to the school for additional information, which means that it will have to be submitted to Instructional Services again once corrections are made, or
   b. Transmits the folder to the appropriate Staffing Specialist.
      i. The Staffing Specialist completes a preliminary review.
      ii. If the documentation is in order, the Staffing Specialist communicates with the school to schedule a meeting with the parent for the Consent for Evaluation Form to be reviewed.
5. If the Consent for Evaluation is signed by the parent, the Staffing Specialist will present the documentation to the School Psychologist for the evaluation to be completed.

Tier III Checklist of Required Activities:

<table>
<thead>
<tr>
<th>RtI Tier III Checklist</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐ Hold IST Tier III Meeting(s).</td>
</tr>
<tr>
<td>☐ Maintain Intervention Support Team Participation Notes.</td>

</table>

Decision Making by IST at Tier III

| Intervention plan successful: Return intervention level to Tier II or discontinue |
| Not enough data gathered; Continue Tier III Intervention Plan |
| Revise and continue Tier III Intervention Plan |
| Progress insufficient with research-based intervention - Convene CST |
| Student making progress, but level of intervention is unsustainable in the general education classroom without support – Convene CST |
Things to Consider Prior to Convening a Child Study Team:

- Are there multiple data points indicating student’s insufficient response to the interventions? Do these progress monitoring data points align with the targeted area of need?
- Were the interventions implemented with fidelity? This means were the parameters of the research-based program followed; were all of the components used; was the required time adhered to? When a teacher chooses to do only part of a program, the program is not being implemented with fidelity. Unfortunately, this is not about how hard a teacher worked but about how well the process was followed and whether or not the student responded with improved achievement.
- Is there evidence that the intervention was modified based on progress monitoring data to assure the best implementation of the intervention? An example of this would be a student receiving CAI for three weeks, but the progress monitoring data indicates no positive change in achievement. Based on this data, the teacher alters the intervention to direct instruction on the concept.
- Does the graphical information clearly show the expected achievement, the achievement of the other students in the class, the achievement of other students participating in the same intervention (if applicable) and the targeted student’s achievement?
- Review CST (Child Study Team) Problem Solving Process Review Forms to assure that data is available to answer all questions.

Process for Moving to a Child Study Team

1. The Intervention Support Team determines that:
   1.1. The student was provided with well delivered, scientific research-based general education instruction and interventions of reasonable intensity and duration with evidence of implementation fidelity;
   1.2. The student’s rate of progress is insufficient OR the student requires sustained and substantial effort to close the gap with typical peers or academic expectations for the chronological age or grade level in which the student is currently enrolled;
   1.3. Immediate intervention is required to address an acute onset of an internal emotional/behavioral characteristic as listed in paragraph (4)(a) of the EBD Rule OR severe social/behavioral deficits that require immediate intervention to prevent harm to the student or others;
   1.4. The general education interventions are not appropriate for a student who demonstrates a speech disorder or severe cognitive, physical or sensory disorder.

2. The IST will review the student’s RtI folder, verify that all items on the Intervention Support Team Folder Checklist are included and complete. If the decision is upheld that general education interventions are not needed (see 1.3 and 1.4 above), the reason must be documented.

3. Graphical data must be included.

4. A Child Study Team will then be scheduled at a time when a Staffing Specialist can be present.

5. At the initial CST, the referral process to determine whether the student meets criteria as a student with a disability begins.
   5.1. Parental consent for formal evaluation must be obtained and the Procedural Safeguards information provided to the parents. The evaluation process must be completed within 60 days that the child is in attendance.
   5.2. The CST will review all data and the Staffing Specialist will complete the CST Problem Solving Process Review. This will indicate if any additional data must be collected.
   5.3. The school psychologist or determined personnel will review all data and address any additional assessments that are needed in order to write the report.
   5.4. An eligibility staffing will be scheduled.

6. At the eligibility staffing, the staffing committee will determine based upon all data reviewed:
   6.1. That the student meets/does not meet eligibility criteria for an Exceptional Student Education program, or
   6.2. A request for additional time evaluation may be granted by the parent(s).
### Tier III: Academic

Specific Intensive Interventions: Students not responding to Tier II

Increase frequency, duration, and monitoring

Individual student or small group not to exceed 1:7

Tier III instruction occurs outside the period of time designated for core instruction. It is in addition to targeted instruction offered during the 120-minutes for ELA (elementary), Reading Class (middle), or 90-minute Math Class (elementary). Instruction must be targeted to data identified needs based on progress monitoring and diagnostic information. Instruction should address one area at a time to insure the ability to progress monitor response. A blanket approach with many targeted areas is not appropriate for Tier III. Tier III instruction is offered daily (5 x per week).

- **Specific Intensive Interventions**
  - Increased Frequency, Duration, and Monitoring of Interventions
  - **Reading** - Harcourt Journeys Intervention Station (K-5)
  - **Reading** - Reading Mastery Plus/Corrective Reading
  - **Reading/Math** - Tutoring by trained paraprofessional or volunteer in addition to targeted instruction from the teacher – tutoring must be explicit, from an approved material/program, and strategy must be research-based
  - **Reading** - Read 180/System 44 – 90-minute block (middle school)
  - **Reading/Math** - Extended use of math manipulatives with direct instruction – explicitly aligned to the targeted area of need
  - Modified Curriculum – e.g. using a lower grade level text for core instruction, based upon a diagnostic and a placement test. Student must still be receiving Tier I instruction.
  - **Reading** – Kaleidoscope – K-5
  - **Math** – GOMath Intensive Intervention Kit

- **Targeted**
  - Extended learning (e.g. after school) with specific targeted intervention and researched, evidence-based tool(s)
  - Suspended Curriculum to focus on Reading instruction. K-5

- **Technology Assisted Instruction**
  - i-Ready (Elementary) Achieve 3000 (middle and high school) as aligned to need with direct instruction component
  - GOMath Soar to Success
  - Edgenuity Credit Recovery (middle and high school) – monitoring student attempts and support needed to complete

- **Progress Monitoring**
  - Weekly – Curriculum Based Measurement aligned to targeted skill area (ex. Cold Reads)
  - Maintain Data and Calendar on the Ongoing Progress Monitoring Documentation Chart and Fidelity Tool

- **Individualized Diagnostic Assessment (if not done in Tier II)** - Administered by Reading Coach
  - ERDA – Reading, K-3
  - DAR – Reading, 4-12
  - STARMath – 1 – 8
  - CORE Assessments, K-12

### Tier III: Behavioral

Intensive

- **Behavior Intervention Plan (BIP) based on formal Functional Behavioral Assessment (FBA) data**
- **Note:** Replacement behaviors must be taught and monitored.

- **Individual counseling**
  - Provided by guidance counselors, school psychologists
  - Regularly scheduled, targeted counseling

- **Individual Interventions**
  - Adult Mentor/Advocate - assurance that mentor contacts a minimum of twice per week and that this is an effective intervention
  - Check in/Check out system (increased intensity)
  - PBIS supported individual interventions
  - Daily Behavior Sheet
  - Interventions as outlined in Automatic RtI (K-5)

If collected data shows insufficient response to Tiers I, II, and III interventions OR the layering of interventions is non-sustainable, then the IST may convene a Child Study Team to consider ESE eligibility.
Tier III Forms
In addition to the forms completed at Tiers I and II, the following forms are used to monitor the Tier III process. They are required. They are completed with the support of the Intervention Support Team. Do not give a teacher a packet of these forms to complete in isolation.

Tier III Parent Notification of Increasing Intervention and Problem Solving – This is used to assure that the parent is aware of the intensity of intervention the child is receiving. If additional assessments, such as an IQ test or a complete FBA are to be given, a Consent for Screening may be needed.

Tier III Parent Conference Form – Documents parent involvement in Tier III.

Tier III Plan - Academic - This plan must clearly delineate the expectations for intervention delivery and progress monitoring. A copy should be given to the teacher at the end of the IST. The original is maintained in the student’s RtI binder.

Tier III Plan for Behavior is the new Behavior Intervention Plan.

Additional Pages as Necessary – use these pages to alter the intervention if necessary when the level of support is being maintained at Tier III, but the intervention must be changed.

Ongoing Progress Monitoring Documentation Chart and Fidelity Tool – This is kept by the teacher and presented with updated information at each subsequent meeting. It documents when the intervention occurred along with the progress monitoring data. This is in addition to the not in place of the documentation that is ongoing for Tier II intervention. For graphing purposes, the data may be transferred to the Progress Monitoring Record Form. All intervention is layered: Tier I + Tier II + Tier III.

Review of Current Level of Performance Comparison Form - This information is required to determine where the student is in relation to other students in the same grade level and population.

Tier III Behavior
If after ongoing Tier I and Tier II intervention, a student continues to exhibit behaviors that are disruptive or that are interfering with the learning of self or others, intensive intervention becomes necessary. The differences between Tier 2 and Tier 3 are: 1) Depth of problem analysis 2) Level of individualization. All Tier III interventions occur in addition to interventions in place from Tier I and Tier II. At Tier III, the focus for behavior is on the following:

- Increased diagnosis – A complete FBA must be administered.
- Determination of the function of the behavior – why is the student exhibiting this behavior?
- Narrow the scope of the focus.
- Explicit communication, modeling, and practice of the desired behaviors
- Removal of stimuli, as possible, that may be accelerating the behavior
- Support for learning needs to prevent frustration and defeat
- Additional support from support personnel – guidance, administration, outside agencies, etc.
- Individualized daily communication with the home, still attempting to focus on positives
- Learning strategies that align with the learning and developmental needs of the student
- Problem solving with the Intervention Support Team to determine effective interventions

Automatic RtI provides a protocol for providing intervention that reaches into Tier III when the student fails to adhere to the expectations. All K-5 classrooms have been provided with this tool. It is available through the Reading Coach at the other levels.

Other Resources for Interventions:
http://www.pbisworld.com/tier-3/

These are used in conjunction with the problem-solving process in the Intervention Support Team.
Parent Requests for Evaluation:

At any time, a parent may request that an evaluation occur to determine if the child requires services provided through Exceptional Student Education. While the school will always act upon a parent’s request, a conversation explaining the process is appropriate. Even though the public at large continues to refer to an evaluation as ‘testing’, it is helpful if school personnel can refrain from doing so, as this gives the impression that a test will be administered to determine eligibility.

If a parent requests ‘testing’ for a student the teacher should refer the parent to the administrator. The Exceptional Student Education Office must be contacted by the school at this time. The state mandates that we use the Response to Intervention in the evaluation process. This means that for many exceptionalities, once consent is signed, the school will provide intervention with progress monitoring during the evaluation. The parent must be involved in this process. When the Consent for Evaluation is signed the 60-day countdown to the eligibility meeting begins. If 60 days is insufficient time to collect the needed data, the student will be declared ineligible based on the available data. Depending on the exceptionality noted in the referral the parent may have the option of signing an extension to allow more time to collect data. The ESE Staffing Specialist brings the Consent for Evaluation Form to the table, and the ESE office monitors the evaluation process.

Presentation of Information:
It is important to remember that the way information is presented to a parent will impact the parent’s response. Care should be taken to give clear information in layman’s terms. The parent is the child’s advocate. District staff may be brought in to assist with communication.

Important Notes and Required Time Frames When a Parent Requests an Evaluation:
Evaluation means procedures used to determine whether a student has a disability or is gifted and in need of specially designed instruction and related services, and the nature and extent of the educational needs of the student.

When an evaluation is initiated at parent request, the general education interventions (RtI) must be completed concurrently with the evaluation but prior to the determination of the student’s eligibility for special education and related services.

If a parent requests that the school district conduct an initial evaluation prior to the completion of the general education interventions, the school district must respond within thirty school days by:

- Obtaining consent for and conduct the evaluation and complete the general education interventions concurrently with the evaluation but prior to the determination of the student’s eligibility.
- The ESE Staffing Specialist must be present when the Consent for Evaluation is signed. Guidance Counselors and Associate Deans for Student Services may not offer the form to a parent without an ESE Staffing Specialist’s involvement.
Section VII – Forms Used in the Response to Intervention Process

The forms noted in BOLD are the sole responsibility of the teacher. All other forms are completed in and with the support of the Intervention Support Team.

The forms noted with an *asterisk may require multiple of the same form as information is updated.

Tier I:
1. Progress Monitoring Plan
2. Student Progress Profile
3. Student Data Form
4. Parent Notification of Intervention Activities

Tier II:
1. Gap Analysis Form – Academic or Behavior
2. Intervention Support Team Intervention Folder Checklist
3. Tier II Plan Academic; Tier II BIP for Behavior
4. *Additional Pages for Tier II Plans
5. *Intervention Support Team Participation Notes (use with plan) – This is maintained throughout the process.
6. *Intervention Support Team Meeting Invitation (required unless other forms of documentation are used; i.e. emails, phone logs)
7. *Ongoing Progress Monitoring Documentation Chart and Fidelity Tool (with graph of data points)
8. Individual Diagnostic Summary Report
9. Exclusionary Factors Form
10. Tier II Parent Conference Form
11. Classroom Observation Form

Tier III:
1. Tier III Parent Notification of Increasing Intervention and Problem Solving
2. Tier III Plan Academic; Tier III BIP for Behavior
3. *Additional Pages for Tier III Plans
4. *Ongoing Progress Monitoring Documentation Chart and Fidelity Tool with graph of data points
5. Tier III Parent Conference Form
6. Classroom Observation Form
7. Review of Current Level of Performance Comparison Data

Additional forms guide the process once a Child Study Team is convened.
TIER I
### Tier I Intervention Plan (PMP)

#### A. Student Need:

<table>
<thead>
<tr>
<th>Strength(s):</th>
<th>Evidenced By (Data or Observation):</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>

Parent Notification of Intervention Activities/Screening

Student Name: ___________________________ Date of Birth: __________________

School: ___________________________ Teacher: ___________________________ Grade: ______

Date(s) Sent Home: ____________________________________________________________

Dear Parent or Guardian,

In an effort to maximize individual student success, our school has an Intervention Support Team. The mission of the Intervention Support Team is to:

- **Identify** the needs of students who are struggling with their academics and who may be at-risk of school failure;
- **Recognize** those students who are achieving at high academic levels who may need additional enrichment experiences;
- **Provide** students with the academic, behavioral and social support needed to succeed in school by implementing various strategies and interventions within the classroom.

This team is comprised of administrators, teachers and other school personnel who are involved with your child’s learning.

At this time, it is believed that this process will be helpful for your child. The Intervention Support Team will collect data relevant to your child’s learning and monitor his/her progress. The following activities can be completed as part of the Intervention Support Team process:

- Vision Screening
- Speech Screening
- Record(s) Review
- Intellectual Screening
- Classroom Observations
- Develop/Review Intervention Plan
- Anecdotal Records
- Hearing Screening
- Curriculum Based Assessments
- Language Screening
- Other: ___________________________
- Educational Screening

As this data is gathered, the Intervention Support Team will meet to discuss appropriate strategies (be it enrichment or remediation) to help your child meet with success in the classroom. We consider you, the parent, to be a key member of the team. Your input is important and we encourage you to participate, as much as possible, in this process.

If you have any questions regarding the Intervention Support Team process, call:

WMIS RTI2123, Rev. 7/13
**Wakulla County Schools**

**Multi-Tiered System of Supports**

**Tier I Gap Analysis - Academic**

(First Conversation)

Student: _____________________  School: _____________________  Grade: _______  Date: __________

Prior to increasing the intensity of intervention to Tier II, a **gap analysis** must be conducted in order to determine if the area of need is unique to the identified student, or if it exists at the classroom level or overall grade level.

Targeted Area of Need (from Tier I Plan): __________________________________________________________

Data that is aligned to the targeted skill: __________________________________________________________

<table>
<thead>
<tr>
<th>Student’s present level of performance (consult data from Student Progress Profile)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Expected level of performance for the student on this skill:</td>
</tr>
</tbody>
</table>

**Is there a significant gap between the student and the expectation?**

☐ Yes  ☐ No

<table>
<thead>
<tr>
<th>Group data against which student data is being compared (ex. 4th grade, 6th period ELA)</th>
</tr>
</thead>
</table>

a) What percent of the comparison group is at or below the level of performance of the identified student?  (Ex. 3/22 = 14%)

b) What percent of the comparison group is above the level of performance of the identified student?  (Ex. 86%)

<table>
<thead>
<tr>
<th>Is the identified student’s performance significantly below at least 80% of the comparison group? (This indicates a significant GAP.)</th>
</tr>
</thead>
</table>

Reflection: How are the needs of the other students who are at or below the level of performance of the identified student being addressed?

**If many of the students in the comparison group are exhibiting a low level of performance, Tier I instruction must be addressed.**

Based on the information above, how will the concern be addressed?

☐ Classroom/Grade Level as a whole – set up meeting with teacher(s) to discuss and plan (Required if need is exhibited throughout the comparison group) An additional IST is not scheduled at this time.

☐ Significant Gap identified – Continue with IST discussion for Tier II intervention plan development.

<table>
<thead>
<tr>
<th>Administrator</th>

</tbody>
</table>

41 | Page
Prior to increasing the intensity of intervention to Tier II, a **gap analysis** must be conducted in order to determine if the area of need is unique to the identified student, or if it exists at the classroom level or overall grade level.

Targeted Area of Need (from Tier I Plan): __________________________________________________________

Data that is aligned to the targeted behavior: __________________________________________________________

<table>
<thead>
<tr>
<th>Review the student’s present level of performance (consult data from Student Progress Profile) – Is the targeted behavior interfering with the student’s academic performance?</th>
</tr>
</thead>
<tbody>
<tr>
<td>Student’s present level of behavior (frequency of targeted behavior): Ex. Student has outbursts a minimum of 5 times per day.</td>
</tr>
<tr>
<td>Expected level of performance for the student on this skill (this may be ‘0’):</td>
</tr>
</tbody>
</table>

**Is there a significant gap between the student and the expectation?**  
☐ Yes  ☐ No

**Group data against which student data is being compared (ex. 6th grade students)**

| a) What percent of the comparison group is at or below the level of performance of the identified student? (Ex. 3/22 = 14%) |
| b) What percent of the comparison group is above the level of performance of the identified student? (Ex. 86%) |

**Is the identified student’s performance significantly below at least 80% of the comparison group? (This indicates a significant GAP.)**

Reflection: How are the needs of the other students who are at or below the level of performance of the identified student being addressed?

| If many of the students in the comparison group are exhibiting a high level of Behavior incidents, the Tier I Behavior Plan in the classroom must be addressed. |

Based on the information above, how will the concern be addressed?

☐ Classroom/Grade Level as a whole – set up meeting with teacher(s) to discuss and plan (Required if need is exhibited throughout the comparison group). An additional IST is not scheduled at this time.

☐ Significant Gap identified – Continue with IST discussion for Tier II Behavior Intervention Plan development.

**Notes:**
Intervention Support Team (IST) Meeting Invitation

Date Sent: ____________________________

Method of Delivery: ____________________________

To the Parent/Guardian of: ____________________________

Teacher: ____________________________

The Intervention Support Team is a committee of people at our school that meets on a regular basis to help teachers find new or different ways to help specific students achieve academic or behavioral success at school. Your child has been referred to the team by the classroom teacher.

Meetings are held to develop Intervention Plans for specific students and also to discuss how the student is responding to the implemented interventions.

You are invited to attend and participate in these important meetings. You will have an opportunity to express any concerns you have or ask questions you may have regarding your child’s education. Your participation is valuable and welcomed. However, if you are unable to attend you may follow up with your child’s teacher.

**Meeting Information:**

Date: ____________________________

Time: ____________________________

Location: ____________________________

Parent was notified by phone ☐ or email: ☐ Response: ____________________________

If you have any questions or need more information, please do not hesitate to contact ____________________________ at ____________________________ (phone number).

---

**PLEASE CHECK THE APPROPRIATE RESPONSE, SIGN AND RETURN TO YOUR CHILD’S TEACHER PRIOR TO THE SCHEDULED MEETING.**

☐ Yes, I will attend the meeting.

☐ I do not plan to attend the meeting. Please contact me at ____________________________ to discuss the results of the meeting.

_________________________  ________________________________  _________________

Student Name  Parent/Guardian Signature  Date

WMIS RTI2259, New 7/12
Wakulla County School Board

Multi-Tier System of Support: Intervention and Response Plan Tier II Academic

Name: ___________________________ Date: ___________________________

Teacher: ___________________________ Grade: _____ D.O.B. ___________________________

Is this a parent request?  ☐ Yes  ☐ No

**Step 1:** Note the comparison sub groups for this student if applicable?

- LEP  ☐
- Low SES  ☐
- Racial Subgroup  ☐
- Other: ___________________________

**Step 2:** What will the plan address?

Diagnostic Given  ☐ yes  ☐ no  Date Given: ___________________________

Name of Diagnostic:

What area is indicated as deficient by the diagnostic and other data?

**A) Academic:**

Based on the diagnostic, what is the targeted skill?

What is the current grade level expectation of the skill? ___________________________

What is the student’s current level of performance? ___________________________

**Step 3:** Performance Gap Assessment

What level will the student have to reach in order to close the gap? ___________________________

Ex. Student must be able to accurately read _____ words per minute.

Ex. Student must comprehend 4th grade level text with 80% accuracy.

How much growth must the student make to close the gap? ___________________________

Ex. If student is currently comprehending 2nd grade level text with 80% accuracy and s/he must reach 4th grade level with 80% accuracy, the student must make two years of growth.

**Step 4:** Estimation of Additional Instruction Time Needed

At Tier II, this may be delivered through additional small group instruction in the classroom. Students significantly behind require longer periods of time at higher levels of intensity to close the gap. The Team should review the Estimated Growth Chart and consider what it will take to move this student to aimline.

**Step 5:** Hypothesis and Intervention Goal and Design

Date: ___________________________

Review of data and problem solving indicate the problem is occurring because ___________________________

Prediction Statement: If ___________________________ would occur, then the problem would be reduced.

Name: ___________________________ D.O.B. ___________________________ School: ___________________________
### Step 6: Goal of Intervention (SMART):

**Description of Intervention:**

---

**Start Date:**

- Number of Days Per Week: _____
- Number of Minutes Per Day: ______

**Person Responsible for Intervention**

**And Progress Monitoring:**

**Method of Progress Monitoring:**

---

### Step 7: Evaluation of response to intervention: This step must be completed prior to increasing intervention.

*Completed Progress Monitoring Documentation Chart with graph must be attached.*

- Has the intervention occurred for a sufficient length of time to collect enough data points to determine progress?  
  - [ ] Yes  
  - [ ] No

- Number of Weeks?  
- Number of Sessions?  
- Length of Sessions? _______ minutes

- Has the intervention been monitored for fidelity?  
  - [ ] Yes  
  - [ ] No  
  - By Whom?

- Compare the student’s rate of progress to the goal set by IST. Is the student making adequate progress toward achieving the goal?  
  - [ ] Yes  
  - [ ] No

---

### Step 8: Determine Next Steps

- [ ] Based on progress, scale back intervention to _______________.
- [ ] Based on progress, continue intervention at present intensity. Recheck on: ________________
- [ ] Based on progress and diagnostic data, change Tier II intervention. Go to 2nd Intervention Page.
- [ ] Based on review of progress, increase intensity to _______. Review Tier II Checklist. Create Tier III Plan.
- [ ] Based on lack of response to intervention, additional diagnostic information is needed. This will be scheduled by (person): ___________________. Review on: ________________
- [ ] Other team decision: ____________________________________________________________

---

**Additional Notes:**

Grade: 
School Year: 

Step 6: Goal of Intervention (SMART):

Description of Intervention: 

Start Date:
Number of Days Per Week: _____ Number of Minutes Per Day: _______

Person Responsible for Intervention And Progress Monitoring:

Method of Progress Monitoring: 

Step 7: Evaluation of response to intervention: This step must be completed prior to increasing intervention.

Completed Progress Monitoring Documentation Chart with graph must be attached.

Has the intervention occurred for a sufficient length of time to collect enough data points to determine progress? ☐ Yes ☐ No
Number of Weeks? Number of Sessions? Length of Sessions? ________ minutes

Has the intervention been monitored for fidelity? ☐ Yes ☐ No By Whom?

Compare the student’s rate of progress to the goal set by IST. Is the student making adequate Progress toward achieving the goal? ☐ Yes ☐ No

Step 8: Determine Next Steps
☐ Based on progress, scale back intervention to ________________.
☐ Based on progress, continue intervention at present intensity. Recheck on: ________________
☐ Based on progress and diagnostic data, change Tier II intervention. Go to 2nd Intervention Page.
☐ Based on review of progress, increase intensity to ________. Review Tier II Checklist. Create Tier III Plan.
☐ Based on lack of response to intervention, additional diagnostic information is needed. This will be scheduled by (person): _________________. Review on: ____________
☐ Other team decision: ____________________________________________
Functional Behavioral Assessment Teacher Form  
(Brief FBA)

Student Name: ______________________________________   Date of Birth: __________ Grade: ________

Teacher: ___________________________________________    School: ______________________________

**WHEN** does the behavior occur the most? (Time?)
- ☐ Morning
- ☐ Afternoon
- ☐ Before/after school
- ☐ lunch/recess

**OTHER EVENTS OF CONDITIONS** occurring right before this behavior:
- ☐ teacher request
- ☐ a consequence has been imposed
- ☐ unexpected schedule change
- ☐ other ______________________________

**WHERE** does the behavior occur the most?
- ☐ regular classroom
- ☐ cafeteria
- ☐ hallways
- ☐ other ______________________________

**WHO** is present when the problem behavior is most likely to occur:
- ☐ teacher
- ☐ peers
- ☐ paraprofessional/TA
- ☐ other

**HOW OFTEN** does the behavior typically occur?
- ☐ times per day ______________________
- ☐ times per week _ _____________________
- ☐ random _ __________________________
- ☐ other ____________________________

---

**Motivation Assessment Scale**

Direction: Read each question carefully and circle the **ONE** number that best describes your observations:

STUDENT NAME

STUDENT ID#

GRADE

DOB

SCHOOL

Date of Observation: ______________________

Time of observation: From: _______ to _______

Observer: ______________________________

Teacher: ____________________________________

Area of Concern:

CLASS/SUBJECT OBSERVED: (Observation should be in the area of difficulty)

□ English/Lang Arts

□ Reading

□ Social Studies

□ Science

□ Math

□ Special Area(s)

□ Other: ____________________________________

PUPIL/TEACHER RATIO AND CLASSROOM ARRANGEMENT DURING OBSERVATION PERIOD:

Students:

<10

10-15

16-20

>20

Classroom Arrangement:

Rows of desks

Grouped desks

Tables

Centers

Other

Student’s Behavior

Always

Often

Sometimes

Rarely/ Never

Not Obs.

Notes

Attentive to instruction/instructor

Begins tasks promptly

Follows oral instruction

Follows written instruction

Participates in class discussion

Responded appropriately to Correction

Responded appropriately to Praise

Seems prepared & organized for activity

Works Effectively in:

Small Group

Large Group

Alone

Age appropriate social interaction w/others

Effectively communicates wants/needs/emotions

Stays on topic/Talks about a variety of interests

Indep. w/self-help skills (toileting, eating, etc)

Demands Teacher Attention

Out of seat/area without permission

Required firm discipline

Short attention span/Easily distracted

Appears to struggle with reading tasks

Appears to struggle with math concepts

Disturbed Others:

What behavior was observed that relates directly to the student’s area of concern? (Must be completed):

Comments:

</tbody>
</table>

If any of the above are checked ‘yes’, the IST needs to have discussion on whether or not the factor is the root cause of the problem rather than a learning disability being the root cause of the problem. If the level of intervention is increasing to the point of ESE consideration, the Exclusionary Factors must be ruled out prior to eligibility being considered.
TIER III
Tier III Parent Notification of Increasing Intervention and Problem-Solving

Student Name: ____________________________________________ Date of Birth: _______________________
School: ___________________________ Teacher: ___________________________ Grade: __________

Date(s) Sent Home: __________________________________________________________________________________

Dear Parent or Guardian,

In an effort to maximize individual student success, our school has an Intervention Support Team. The mission of the Intervention Support Team is to:

- **Identify** the needs of students who are struggling with their academics and who may be at-risk of school failure;
- **Recognize** those students who are achieving at high academic levels who may need additional enrichment experiences;
- **Provide** students with the academic, behavioral and social support needed to succeed in school by implementing various strategies and interventions within the classroom.

This team is comprised of administrators, teachers and other school personnel who are involved with your child’s learning.

At this time the Intervention Support Team sees the need for additional data on your child. As we seek this data, we wish to keep you fully informed of all activities related to your child’s learning. The following activities may be completed as part of the ongoing data collection process:

- Processing/Achievement Assessment to gather data for problem solving intervention

The Intervention Support Team will meet to discuss appropriate strategies (be it enrichment or remediation) based on available data to help your child meet with success in the classroom. We consider you, the parent, to be a key member of the team, and you are welcome at every meeting. Your input is important and we encourage you to participate, as much as possible, in this process.

If you have any questions regarding the Intervention Support Team process, call:

Intervention Support Team Designee _______________________________ Phone Number _______________________________

If needed, I give my permission for the Intervention Support Team to gather data on processing and achievement to plan for intervention for my child.

______________________________________________________________________________________________

Parent/Guardian Signature ___________________________ Date __________________________

PLEASE RETURN THIS FORM TO YOUR CHILD’S SCHOOL.

WMIS RTI2265, New 7/12
Wakulla County School Board
Multi-Tier System of Support: Intervention and Response Plan Tier III Academic
To be implemented IN ADDITION TO Core Instruction and the Tier II Plan.

Name: ___________________________ Date: ___________________________
Teacher: __________________________ Grade: __________ D.O.B. __________________________

Is this a parent request? □ Yes □ No

Step 1: Note the comparison sub groups for this student if applicable?
LEP □ Low SES □ Racial Subgroup □ Other: __________________________

Step 2: Summarize the progress made to date.
Additional Diagnostics Given/Reviewed:

Step 3: Performance Gap Assessment
What level will the student have to reach in order to close the gap? __________________________

Ex. Student must be able to accurately read _______ words per minute.
Ex. Student must comprehend 4\textsuperscript{th} grade level text with 80% accuracy.

How much growth must the student make to close the gap? __________________________
Ex. If student is currently comprehending 2\textsuperscript{nd} grade level text with 80% accuracy and s/he must reach 4\textsuperscript{th} grade level with 80% accuracy, the student must make two years of growth.

Step 4: Estimation of Additional Instruction Time Needed
At Tier III, this will require additional time beyond the classroom. Students significantly behind require longer periods of time at higher levels of intensity to close the gap. Consideration should be given to the support necessary to provide the intervention at Tier III intensity. The Team should review the Estimated Growth Chart and consider what it will take to move this student to aim line. Note: A computer-assisted instruction program in isolation does not meet the intensity required at Tier III. Tier II intervention with data collection must be ongoing.

Step 5: Hypothesis and Intervention Goal and Design
Date: __________________________ Review of data and problem solving indicate the problem is occurring because __________________________

Prediction Statement: If __________________________ would occur, then the problem would be reduced.
### Step 6: Goal of Intervention (SMART):

**Description of Intervention:**

---

### Start Date:

<table>
<thead>
<tr>
<th>Number of Days Per Week:</th>
<th>Number of Minutes Per Day:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Person Responsible for Intervention**

**And Progress Monitoring:**

**Method of Progress Monitoring:**

---

### Step 7: Evaluation of response to intervention: This step must be completed prior to increasing intervention.

*Completed Progress Monitoring Documentation Chart with graph must be attached.*

Has the intervention occurred for a sufficient length of time to collect enough data points to determine progress? [ ] Yes [ ] No

<table>
<thead>
<tr>
<th>Number of Weeks?</th>
<th>Number of Sessions?</th>
<th>Length of Sessions? minutes</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Has the intervention been monitored for fidelity? [ ] Yes [ ] No

By Whom?

---

Compare the student’s rate of progress to the goal set by IST. Is the student making adequate progress toward achieving the goal? [ ] Yes [ ] No

---

### Step 8: Determine Next Steps

- [ ] Based on progress, scale back intervention to ________________.
- [ ] Based on progress, continue intervention at present intensity. Recheck on: ________________
- [ ] Based on lack of response to intervention, additional diagnostic information is needed. This will be scheduled by (person): ________________ . Review on: ________________
- [ ] Based on review of progress and diagnostic information, change the Tier III intervention. Complete 2nd Intervention Page.
- [ ] Based on review of progress, duration of deficit, and fidelity of implementation, refer to CST.
- [ ] Other team decision: ________________________________________________________________

Additional Notes: ________________________________________________________________

_______________________________________________________________________________________
Section VIII – Tools to Assist the Response to Problem-Solving Process

It is strongly recommended that the Intervention Support Team utilize the tools on the following pages. They will assist in narrowing the problem definition, creating the hypothesis, and looking at intervention and progress monitoring.

Tools in this Section:

- Guide to Defining the Problem (Reading)
- Guide to Defining the Problem (Math)
- Guide to Defining the Problem (Writing)
- Guide to Defining the Problem (Fine Motor)
- Guide to Defining the Problem (Speech/Language)
- Guide to Defining the Problem (Behavior)
- What’s the Problem? – Reading
- Formative Assessment Strategies and Tools
- Math Four Quadrant Instructional Sort
- Accommodations and Modifications, Examples

Fluency Targets for Grade-Level Accomplishment

The targets for correct words per minute with comprehension.
(See chart on the following page)

Note: These are provided as a guide. It is important to measure comprehension with fluency. The only reason to build fluency is to ‘free up the brain’ to comprehend.
The Hasbrouck-Tindal table shows the oral reading fluency rates of students in grades 1 through 8, as determined by data collected by Jan Hasbrouck and Gerald Tindal. Teachers can use this table to draw conclusions and make decisions about the oral reading fluency of their students. Students scoring 10 or more words below the 50th percentile level, based on the average score of two unpracticed readings from grade-level materials, need a fluency-building program such as Read Naturally. The table can also be used to set the long-term fluency goals for struggling readers.

*WCPM = Words Correct Per Minute

**Average weekly improvement is the average words per week growth you can expect from a student. It was calculated by dividing the difference between the fall and spring scores by 32, the typical number of weeks between the fall and spring assessments. For grade 1, since there is no fall assessment, the average weekly improvement was calculated by dividing the difference between the winter and spring scores by 16, the typical number of weeks between the winter and spring assessments.
Guide to Defining the Problem - READING

How is reading assessed in the teacher’s class (i.e. assessment instrument, skills measured, how often?)
_____________________________________________________________________________________

What is the student’s reading level?________________________________________________________

What is the expected reading level at this point in the school year?_____________________________

*Check areas that the student has NOT mastered for his/her current grade level*

Early Literacy Skills/Phonological Awareness:
- □ Book/print awareness (parts of book, directionality, follow along when listening to text read aloud, etc.)
- □ Recognize/produce rhyming words
- □ Syllables – count, blend, segment, delete syllables in compound words
- □ Match/identify beginning sounds in words
- □ Match/identify ending sounds in words
- □ Blend sounds of one-syllable word (e.g. what word am I saying? /r/ /u/ /n/)
- □ Segment sounds of one-syllable word (e.g. how many sounds do you hear in man?)
- □ Manipulate sounds – delete, add, or substitute individual sounds to produce a new word

Decoding/Word Recognition:
- □ Recognize and name upper and lower case letters of the alphabet
- □ Recognize letter-sound association
- □ Use letter-sound knowledge to decode one-syllable words when reading
- □ Use structural analysis (e.g. syllables, prefixes, suffixes, root words) to decode multi-syllable words when reading.
- □ Use context clues to decode
- □ Self-monitoring decoding using multiple decoding strategies
- □ Recognize high frequency sight words at grade-appropriate level
- □ Grade appropriate development of oral vocabulary
- □ Grade appropriate development of reading vocabulary and word meaning

Fluency:
- □ Reads aloud grade-level text accurately
- □ Uses appropriate phrasing, smoothness, and pace when reading text

Comprehension:
- □ Retell (beginning, middle, end, characters, details, etc.)
- □ Answer who, what, when, where, how questions
- □ Predict what may happen next in stories
- □ Summarize main idea
- □ Cause and effect, problem/resolution
- □ Draw conclusions
- □ Make inferences
- □ Use self-monitoring strategies for comprehension (e.g. reread, adjust reading speed, paraphrase, retell, etc.)
- □ Understanding complex text
Guide to Defining the Problem - Math

*Check areas that the student has NOT mastered for his/her current grade level*

**Number Sense:**
- Rote Count
- One-to-one correspondence
- Read numbers
- Write numbers
- Representing numbers in multiple ways
- Comparing and ordering numbers
- Place value
- Fractions

**Computation:**
- Equality
- Basic addition/subtraction/multiplication/division facts
- Multi-digit addition/subtraction/multiplication/division facts
- Estimation

**Problem Solving:**
- Understanding of operation to be used
- Understanding of steps involved in multi-step problem
- Correctly computes solution using reasoning
- Uses multiple strategies, including the use of a calculator
- Reading to solve word problems

**Other:**
- Geometry (2 dimensional/3 dimensional)
- Measurement (linear/mass/capacity/area/perimeter/time/temperature/money)
- Probability/data analysis
- Algebra (patterning/properties)
- Other: _____________________________________________________________
Guide to Defining the Problem - WRITING

Which area(s) has the student NOT mastered for his/her current grade level?

Conventions:
- ☐ Spelling
- ☐ Punctuation
- ☐ Capitalization
- ☐ Grammar
- ☐ Understands directionality of writing (e.g., left-to-right, top-to-bottom)
- ☐ Penmanship (refer to Fine Motor Skills)

Content
- ☐ Orally expresses ideas in organized and coherent manner
- ☐ Uses drawings and/or letter strings to express ideas
- ☐ Idea development/elaboration
- ☐ Organization/sequence
- ☐ Focus/remains on topic
- ☐ Vocabulary/word usage is grade appropriate
- ☐ Sentence structure (varied length, complete sentences, sentence fluency, etc.)

☐ Other area(s) of concern:

__________________________________________________________________________________

__________________________________________________________________________________

__________________________________________________________________________________

__________________________________________________________________________________
Guide to Defining the Problem - Fine Motor

Personal Care Skills:
- Student shows significant difficulties with feeding self or managing meal process as compared to peers
- Student shows significant difficulties with hygiene skills such as toileting or washing hands as compared to peers
- Student shows significant difficulties with managing clothing (putting on/off and fasteners) as compared to peers
- Student has much difficulty with organization of materials (papers, notebooks, book bag, art materials, computer) or organization of self (assignments, managing schedule, following routine, transitions, set-up/clean-up, completing homework, being on time, etc.)

Student Role/Interaction Skills:
- Student has significant difficulties managing fine motor skills and manipulatives in class (sharpening pencil, glue, coloring, scissors, writing utensils, math materials)
- Student shows a poor grasp on writing utensils
- Student shows poor finger/hand strength to open materials/packages age appropriately or use classroom materials.

Play:
- Student has difficulty using toys/items for intended purpose
- Student has difficulty engaging with other children to play
- Student has small repertoire of play skills

Graphic Communication:
- Student shows significant difficulties with handwriting as compared to peers:
  - Too little or too much pressure on paper
  - Switches writing hand
  - Poor spacing, alignment or letter formation
  - Messy work, erases or writes over a lot
  - Poor written organization/spatial planning
- Student is slow with handwriting speed and has difficulty completing assignments as compared to peers
- Student has difficulty with keyboarding as compared to peers.

Visual Perceptual/Ocular Motor:
- Student has difficulty copying from the board or near source in timely manner
- Displays frequent reversals in writing work for his age
- Student has difficulty with reading, location information on a page, or word search
- Student has much trouble sequencing and following a visual model (block designs, crafts, parquetry, etc.)

Sensory/Work Behaviors:
- Student shows significant aversion to handling various textures
- Student shows many self-stimulatory behaviors or is very ritualistic
- Student shows great fear of movement activities/playground equipment
- Student shows significant aversion to loud noises, visual stimulation
- Student has much difficulty getting along with other children
- Student shows much difficulty with transitions or routines
Guide to Defining the Problem - Speech/Language

Articulation/Pronunciation:
- Student omits, substitutes, or distorts sounds in words
- When speaking, student’s speech is unintelligible
- Other

Voice/Vocal Quality:
- Student has unusual vocal quality (hoarse, harsh, breathy, nasal, high/low pitch)
- Student has difficulty using appropriate intensity/loudness (talks loudly or softly)
- Other

Fluency:
- Student appears to stutter (speech has repetitions or prolongations)
- Other

Expressive Language (Ability to verbally label/name language concepts):
- Spoken vocabulary is delayed compared to peers
- Student has difficulty using various language concepts
  - Spatial concepts/prepositions (e.g. on, under, behind)
  - Descriptive concepts/adjectives and adverbs (e.g. color words, long, rough, quickly)
  - Temporal concepts/time concepts (e.g. first, last, night)
  - Quantity concepts/number concepts (e.g. all, some, half, 1, 2, 3, 4)
- Student has difficulty answering “wh” questions
- Student uses incorrect grammar/syntax (e.g. She runned down the hall.)
- Student has difficulty verbally relating experiences and stories in sequential order even when picture cues are available
- Other

Receptive Language/Listening Comprehension (Ability to identify and understand various language concepts)
- Student has difficulty identifying age appropriate objects/pictures compared to peers (vocabulary)
- Student has difficulty identifying various language concepts:
  - Spatial concepts/prepositions (e.g. on, under, behind)
  - Descriptive concepts/adjectives and adverbs (e.g. color words, long, rough, quickly)
  - Temporal concepts/time concepts (e.g. first, last, night)
  - Quantity concepts/number concepts (e.g. all, some, half, 1, 2, 3, 4)
- Student has difficulty following one, two, or three step directions (circle appropriate number)
- Student has difficulty placing pictures of stories in sequential order
- Other

Pragmatics (Ability to use language socially):
- Student has difficulty making and sustaining friendships
- Student has difficulty demonstrating and sharing his/her feelings
- Student has difficulty interpreting body language
- Student has difficulty detecting humor or sarcasm in the verbal expression of others
- Student has difficulty with initiating, joining or maintaining a topic in conversation
Guide to Defining the Problem - Behavior

Student Name: ___________________________ DOB: _______ Grade: _______ Date: ______________________

Referring Teacher: ______________________________________________________

Classroom Teacher (if different from referring teacher): _______________________

Target the behavior(s) that appear to be interfering with the student’s performance on a regular basis
(SELECTION TOP 2 OR 3 BEHAVIORAL CONCERNS ONLY)

- □ Frequently argues with peers
- □ Frequently argues with staff
- □ Fails to finish things he/she begins
- □ Difficulty concentrating
- □ Poor social skills
- □ Cannot sit still, restless, overly active for age
- □ Clings to adult, very dependent
- □ Cries often
- □ Bullies others
- □ Physically aggressive to others
- □ Acts without thinking
- □ Demands lots of attention from staff
- □ Seeks attention from peers
- □ Destroys property
- □ Lacks organization, can’t manage materials
- □ Seems fearful
- □ Would rather be alone than with others
- □ Lying, cheating
- □ Steals
- □ Difficulty making/keeping friends
- □ Difficulty with transitions
- □ Does not adapt well to change
- □ Overly shy, withdrawn
- □ Physically harms self
- □ Temper outbursts
- □ Communication difficulties
- □ Often appears nervous or tense
- □ Uses obscene language
- □ Sudden changes in mood, feelings
- □ Difficulty following directions
- □ Frequently avoids tasks
- □ Refuses to talk
- □ Does not show guilt after misbehaving
- □ Consequences have little effect
- □ Avoids groups/peers
- □ Repeats actions over and over
- □ Picks nose, skin, or other body parts
- □ Breaks school/classroom rules frequently
- □ Bothers peers while they are working
- □ Frequently makes careless mistakes on tasks

From the list below, indicate antecedents (what happens before the behavior), setting (where behavior occurs) and consequences (what happens after the behavior).

<table>

71 | Page
Is the problem behavior(s) believed to be related to:

**SKILL DEFECTS**
- ☐ Work is too hard
- ☐ Not enough practice
- ☐ Not enough help
- ☐ Not generalized skill

**Behavioral Deficit**
- ☐ Does not know expected
- ☐ Needs practice/modeling
- ☐ Requires more structure
- ☐ Can’t apply across structure

**COMMUNICATION**

**Communicative Intent**
- ☐ To request assistance
- ☐ To request a break
- ☐ To request preferred activity/item
- ☐ To indicate physical discomfort
- ☐ To indicate frustration

What function(s) does the identified behavior(s) seem to serve for the child?

Escaping:
- ☐ Avoid a demand or request
- ☐ Escape/avoid an activity/task
- ☐ Escape/avoid a person
- ☐ Escape the classroom/setting
- ☐ Escape the school
- ☐ Other_______________

**Sensory/Perceptual**
- ☐ Automatic sensory stimulation
- ☐ Perceptual reinforcement
- ☐ Secondary to a fear or phobia
- ☐ Results from poor impulse control
- ☐ Related to an obsession or compulsion

**Attention/Control**
- ☐ Gain adult attention
- ☐ Gain peer attention
- ☐ Get sent to preferred adult
- ☐ Gain control of person/activity
- ☐ Other_______________

**Gain Desired Item**
- ☐ Get desired item/activity
- List: ___________________________
- ☐ Other_______________

Hypothesis of Function of Behavior

When *(antecedents/triggers)* occurs in the context of *(setting/activity)* the student displays *(behavior)* in order to *(perceived function)*.

What does the student do well? What positive behaviors, activities, and/or roles could replace the problem behavior and still serve the same function for the student?

__________________________________________________________________________________________________________________________________________________

When, where, and with whom is problem behavior typically not displayed?
__________________________________________________________________________________________________________________________________________________

List some potential incentives or motivators for the student.

Accommodations and Modifications

Definitions:
Accommodations are changes to the way a child is expected to learn or how he or she is tested. Modifications are changes to what a child is expected to learn.

Accommodations involve many kinds of techniques and support systems. Accommodations help students work around limitations related to their disability. Students who are blind may need to use braille textbooks or books-on-tape. Students who use wheelchairs may need a ramp or elevator to move independently in the school building. Students who are deaf or hard-of-hearing may need a sign language interpreter. Accommodations are really “whatever it takes” to make sure that students with a disability can participate as fully as possible in the general curriculum and ultimately earn a standard high school diploma. Accommodations can be provided for

- instructional methods and materials
- assignments and assessments
- learning environment
- time demands and scheduling
- special communication systems

Goals for learning in school do not have to change when accommodations are used. Students with a disability can be challenged to meet the same requirements as students without disabilities. Most can take the same tests, pass the same kinds of courses, and earn the same high grades to graduate with a standard diploma.

<table>
<thead>
<tr>
<th>Accommodations</th>
<th>Modifications</th>
</tr>

<td>Teacher creates a Tier I Plan with parent contact and monitors progress. Progress Monitoring determines increase of intensity of intervention to Tier II and/or Tier III. Students receiving a reading deficiency letter must have at least a Tier I Plan.</td>
<td></td>
</tr>
</tbody>
</table>

**Core instruction (all students):**
- Expanding Expressions (oral language)
- Harcourt Journeys with Interactive Read Alouds and Vocabulary Instruction; district aligned trade books
- Daily instruction in phonemic and phonological awareness; phonics; decoding fluency;
- Differentiated small and whole group instruction
- 90 – 120 minutes daily

**Intervention Modification:**
Targeted small group instruction occurs at point of need. If student fails to meet growth benchmark(s), one of the following will occur:
- Additional diagnosis with aligned instruction;
- More frequent progress monitoring with aligned instruction;
- Creation of a Tier I Plan with parent contact.

**Correlation to MTSS Plan:**
Effective Tier I Instruction

STAR Early Literacy will be implemented three times a year. Interventions will align throughout the year according to scale score.

**Intervention**

- **Core instruction:**
  - Harcourt Journeys with close reading and Vocabulary Instruction; district-aligned trade books;
  - Close reading and vocabulary instruction using content-area texts (science, social studies, etc.);
  - REWARDS with ongoing instruction as needed in multisyllabic word decoding, affixes, and spelling patterns

**Intervention Modification**

- Targeted small group instruction occurs at point of need. If student fails to meet growth benchmark(s), one of the following will occur:
  - Additional diagnosis with aligned instruction;
  - More frequent progress monitoring with aligned instruction;
  - Creation of a Tier I Plan with parent contact.

**Correlation to MTSS Plan**

- Effective Tier I Instruction

---

**Fourth Grade:** Scaled Score of 297-310

</table>

**Intervention**

- Administer DAR to help target intervention.

**Core Instruction + Targeted Intervention:**

- Identification of specific area(s) of need with aligned 2-3 times a week small group instruction.
- 15 minutes per day in targeted intervention;
- Group size ≤ 7 students;
- Supplemental Instructional Materials:
  - iReady; REWARDS

**Intervention Modification**

- Parents of student(s) not on level by the mid-year interim assessment (STAR Reading) must be notified of reading deficiency.

- If progress monitoring indicates the student is not making adequate progress toward on-level achievement, one of the following will occur:
  - Increased time/frequency of targeted instruction;
  - Increased problem-solving; Change of target or type of intervention based on problem solving.

- Reference Tier II (pg. 23) Toolbox for Response to Intervention, located in the MTSS Handbook. [Link](http://www.walullaschooldistrict.org/Portals/Walulla/District/docs/Employee Resources/RTI/RTI Handout-2016final.pdf)

**Correlation to MTSS Plan**

- Student is placed on the Watch List, and a Tier I Plan is created with parental input. Progress Monitoring will determine the need for possible increase of intervention intensity to Tier II.

---

**Fourth Grade:** Scaled Score of at or below 296

**Intervention**

- Administer DAR to help target intervention.

**Core Instruction + Targeted Intervention + Intensive Intervention:**

- Intensive Targeted classroom instruction occurring daily. Additional 20 minutes per day; Group size ≤ 7
- Supplemental Instructional Materials:
  - iReady with direct instruction component; Harcourt Journeys Intervention Station

**Intervention Modification**

- Parents of student(s) not on level by the mid-year interim assessment (STAR Reading) must be notified of reading deficiency.

- If progress monitoring indicates the student is not making adequate progress toward on-level achievement, one of the following will occur:
  - Increased time/frequency of targeted instruction;
  - Increased problem-solving; Change of target or type of intervention based on problem solving.

- Reference Tier II (pg. 23) and Tier III (pg. 29) Toolboxes for Response to Intervention, located in the MTSS Handbook. [Link](http://www.walullaschooldistrict.org/Portals/Walulla/District/docs/Employee Resources/RTI/RTI Handout-2016final.pdf)

**Correlation to MTSS Plan**

- Teacher creates a Tier I Plan with parent contact and monitors progress. If full data reflect ongoing deficiency, problem solving must occur to increase level of intervention to Tier II and/or Tier III.

In 11th grade: Intensity must be at Tier II.  
In 12th grade: Intensity must be at Tier III. |
Response to Intervention (RtI) Glossary

PMP – Academic Improvement Plan or Progress Monitoring Plan. The Tier I Intervention Plan serves as the AIP or PMP for a student. This is required by state statute for any student who is failing to make adequate progress.

Behavior Intervention Plan (BIP) – A behavior intervention plan is based on a Functional Behavior Assessment (FBA). It is developed and implemented by a collaborative team, which includes the student and parent as appropriate. The plan includes positive behavior supports (PBS), identified skills for school success, and specific strategies for behavioral instruction.

Data Point – A score on a progress monitoring assessment. Multiple data (a minimum of four) points are needed to determine whether or not a student is responding positively to an intervention.

Data-Driven Decision Making – The process of planning for student success (both academic and behavioral) through the use of ongoing progress monitoring and analysis of data.

Discrepancy Statement – A clear and measurable statement of student performance as compared to same-age peer performance.

Behavior example: When observed in circle time, Billy is on-task 30% of the time compared to classmates who are on-task 88% of the time.

Academic example: Susan, a third grader, is reading 65 correct words per minute (cwpm). Her peers are currently reading 95 correct works per minute (cwpm).

Duration – How long a behavior or an academic intervention occurs. Used in the context of examining and observing three important factors: Frequency, Intensity, and Duration. For the purposes of documenting response to intervention, duration refers to the length (number of minutes) of a session multiplied by the number of sessions per school year. “Sufficient duration” is dependent on the program or strategy being used, the age of the student, and the type and severity of the problem. Many research-based programs provide guidelines or recommendations for duration.

Fidelity – Fidelity refers to the accuracy, and attentiveness with which an intended research design for instruction and/or intervention is implemented. This means that the intervention is implemented as the research base indicates. To support standardization, the person providing the intervention must generally follow a prescribed protocol in order to ensure a program or strategy’s fidelity.

Frequency – How often a behavior or an intervention occurs.

Functional Behavior Assessment (FBA) – Functional behavioral assessment or functional behavior assessment. An assessment that represents an attempt to look beyond the obvious interpretation of behavior as “bad” and determine what function it may be serving for a child. A ‘brief’ FBA may be required early in the problem-solving process, while a complete assessment would be needed prior to determining a Tier III intervention.

Gap Analysis - Gap Analysis allows us to measure the difference between the student’s current level of performance and benchmark expectations.

Intensity – The adjustment of duration, length, and teacher-to-student ratio for a child’s academic or behavioral needs.

Intervention – The systematic and explicit instruction provided to accelerated growth in a targeted area of identified need. They are designed to improve performance relative to a specific, measurable goal. Interventions are based on valid information about current performance, realistic implementation, and include ongoing student progress monitoring.

Problem-Solving Process – Steps a collaborative team, which includes general and special educators, and at times parents, completes to evaluate student data and to plan and monitor prescribed interventions.

Research-based Instruction/Intervention/Practice – An evidence-based instructional practice or intervention found to be effective to address a particular learning or behavioral need. When appropriately used, children can be expected to make adequate gains in achievement. Ongoing documentation and analysis of student outcomes helps to define effective practice.
Specific, Measurable Outcome – The statement describing the single, specific, desired result of an intervention. To be measurable, the outcome MUST be expressed in observable and quantifiable terms.

SMART Goal –
- **S** – Specific
- **M** - Measurable
- **A** - Attainable (Reasonable)
- **R** – Results Oriented
- **T** – Time Bound

Example: John will demonstrate mastery of (S) grade-level basic math calculation skills as (M-A-R) evidenced by a score of 85% or better on the (T) end of unit test on numerical operations

**Tier I** - Universal instruction – This is core instruction that is provided for all students.

**Tier II** - Strategic Intervention – This is targeted small-group instruction provided IN ADDITION TO Tier I instruction. Choice of intervention is guided by diagnostic information.

**Tier III** - Intensive Intervention – This level of intervention is provided to students who are significantly behind and require a high-level of instructional time guided by diagnostic information.

**Frequently Asked Questions:**

1. **What is MTSS?**
   MTSS stands for multi-tired system of supports. This covers all of the supports offered to students in general education and exceptional education classrooms. The RtI process falls under the umbrella of MTSS.

2. **How does RtI fit with the Progress Monitoring Plan?**
   The RtI process is our Progress Monitoring Plan. The Tier I, II, and III Intervention Plans document the Progress Monitoring on targeted students. Other students are monitored through Universal Progress Monitoring (FAIR-FS, STAR Math, STAR Reading, etc.). When a specific PMP is called for, the Tier I Intervention Plan is used to document the required information.

3. **Is there a list of strategies?**
   There is no such thing as a comprehensive list of strategies. However, some strategies are noted in the Toolboxes in Appendix A of this handbook. The PreReferral Manual should be available at every IST meeting to assist with this as well. It is important to note that specific programs/instructional tools are aligned with the tiers of RtI. These programs are reserved for use with students needing intervention at the intensity of the noted tier. The teacher is responsible for assuring that the program is delivered as indicated in the research base of the program. This includes the instructional methodology, time on task, appropriate group size, etc. A teacher may also refer to the resources listed on the district SharePoint site.

4. **Who is responsible for RtI?**
   Since the focus of RtI is strengthening the effectiveness of core curriculum for all students, ALL teachers are responsible for Response to Intervention. It involves good instructional practice that is expected in all classrooms for all students. Teachers at all levels will be using progress monitoring data to inform their instruction for all students. Monitoring of the RtI process is the responsibility of the Intervention Support Team working in conjunction with teachers and administrators at each school.

5. **What is a reasonable time to implement an intervention before determining if it is effective or not?**
   Interventions differ in intensity and kind, so there is no specific length of time for an intervention to be implemented. The length of time will be determined by the Intervention Support Team and will be dependent on progress monitoring results. A minimum length of time has been noted on the various documents and checklists in this plan. The IST may alter that requirement based on the severity of the problem.
Exception: A minimum of 6 months of Tier II/Tier III interventions must be in place BEFORE a student can be referred for EBD.

6. **How does this impact Level 1 and Level 2 students?**
State mandates to remediate Level 1 and Level 2 students exist. Plans for reading intervention are outlined in the K-12 Comprehensive Research-Based District Reading Plan. The students in Level 1 and Level 2 on FSA will continue to be progress monitored and provided with remediation. The student level will also serve as one piece of data for determining the level of intensity (Tier) for the necessary interventions.

7. **Is a retained student automatically Tier II or Tier III?**
Retention is serious interruption in a student’s school career. Therefore, it is not okay for a student to be retained and continue with business as usual. Data review and problem solving must occur at the beginning of the next school year to determine the best instructional path for the student. This will determine the intensity of intervention required for the student. Retained third grade students must be monitored through the IST.

8. **What happens when a new student is enrolled who was Tier II or Tier III in another district?**
Review the student records. Bring the student to the Intervention Support Team and determine what data is needed. Continue in the IST process with the student based on diagnostic and progress monitoring information. Be aware that data from another district may not be usable in its entirety.

9. **If I complete a Tier I Plan, deliver the intervention, and the student shows enough improvement to be back on track, do I still sign up for IST?**
No. This is good news! The student is ready to progress with the rest of the class. There is no need for IST involvement.

10. **What happens if a child struggles, we begin intervention with a Tier I Plan, they improve, we discontinue, and the student falters again?**
A student may struggle in the fall of the school year, improve, and then begin to have difficulty again due to the rigor of the content or in a different area. If this happens, you simply begin another Tier I Plan to address the problem. Discontinuing a Tier I Plan due to success does not guarantee that the student will never struggle again.

11. **Who determines when to convert a Child Study Team (CST) to consider eligibility for ESE services?**
The Intervention Support Team makes this decision collaboratively. The decision is based upon the data indicating the student’s response to intervention and the layering of support the student is receiving. The Staffing Specialist is in charge of scheduling the CST once the folder has been reviewed.

12. **What does an evaluation consist of when the determination is made that the student is not responsive to intervention?**
An evaluation consists of a review of all of the intervention and progress monitoring data that has been collected on the student. In addition, a team may request that additional data be collected. The school psychologist reviews all of the data and writes the reports evaluating the student RtI data and any additional assessments. If the quality or quantity of the data is not adequate, the team may request that additional intervention be provided. If a significant discrepancy between the targeted student’s response to intervention and the achievement of the peer group is not identified, the student may be declared ineligible.
